how to react **At the Edge of Existence** Brandon West,2021-12-03 Few scary stories begin with a disclaimer that they are fictional Instead they claim to be true even when they are not Such stories blur the line between fiction and reality pushing audiences to consider where fiction ends and reality begins These kinds of horror stories comprise the understudied subgenre of liminal horror As the first book on this subject this volume surveys a variety of liminal horror films It discusses the different variations within liminal horror s sub genres and considers why horror films are obsessed with the natures of and borders between fiction and reality After first laying out the basic traits of the horror genre in the context of liminality this book then dives into film more specifically and how the medium is uniquely situated to explore the movement between the fictional and the real Through lenses such as dreaming memory and perception the following chapters explore the role liminal horror plays in the the human psyche s subconscious unconscious and the various functions of the human mind in perceiving or misperceiving reality **Stark's War** John G.
