Scarlett Cornelissen, Albert Grundlingh, 2013-09-13 This book provides an interpretation of sport in contemporary South Africa through an historical account of the evolution and social ramifications of sport in the twentieth century It comprises chapters which trace the growth of sports such as football cricket surfing boxing and rugby and considers their relationship to aspects of racial identity masculinity femininity political and social development in the country The book also draws out the wider geo political significance of South African sport placing it in the context of the development of sport both elsewhere on the African continent and internationally The history of sport has seen significant international growth over the past few decades For the most part however the history of sport in Africa has remained largely untraced By detailing the way in which sport s development in South Africa overlapped with major socio political processes on the wider African continent this volume seeks to narrow the gap This book was previously published as a special issue of the International Journal of the History of Sport

*Okinawan Weaponry, Hidden Methods, Ancient Myths of Kobudo & Te* Mark D Bishop, 2017-02-07 This work clearly defines and catalogues the fifty historical hand held weapons that were used in Okinawa Prefecture and the Ryukyu Islands from the dawn of its history It show the stages of development and introduction of these weapons to the islands and how they affected the culture through the ages The standard five popular weapons of the modern era bo sai tonfa nunchaku kama are described in detail with many scale drawings but surprisingly it clearly shows the influence of bladed weapons such as the curved sword Firearms also made a huge contribution to Ryukyuan weapon development so these are also introduced in their historical context Most surprising is the contextual detail of the historic eras such as the affects of the Satsuma Invasion of the Ryukyu Islands in 1609 the dissolution of the monarchy in 1879 Contrary to popular myth between these years Okinawans did not adopt farmers tools for self protection for quite a different history is revealed herein

*Haig's Enemy* Jonathan Boff, 2018-03-09 During the First World War the British Army s most consistent German

opponent was Crown Prince Rupprecht of Bavaria Commanding more than a million men as a General and then Field Marshal in the Imperial German Army he held off the attacks of the British Expeditionary Force under Sir John French and then Sir Douglas Haig for four long years But Rupprecht was to lose not only the war but his son and his throne Haig's Enemy by Jonathan Boff explores the tragic tale of Rupprecht's war the story of a man caught under the wheels of modern industrial warfare Providing a fresh viewpoint on the history of the Western Front Boff draws on extensive research in the German archives to offer a history of the First World War from the other side of the barbed wire He revises conventional explanations of why the Germans lost with an in depth analysis of the nature of command and of the institutional development of the British French and German armies as modern warfare was born Using Rupprecht's own diaries and letters many of them never before published Haig's Enemy views the Great War through the eyes of one of Germany's leading generals shedding new light on many of the controversies of the Western Front The picture which emerges is far removed from the sterile stalemate of myth Instead Boff re draws the Western Front as a highly dynamic battlespace both physical and intellectual where three armies struggled not only to out fight but also to out think their enemy The consequences of falling behind in the race to adapt would be more terrible than ever imagined
