

Urban Design Guidelines for Gas Stations

May 2006

Compte tenu de la nature de ce document, il n'est disponible qu'en anglais. La Ville pourra, sur demande, traduire ce document au complet ou en partie. Les demandes de traduction doivent être présentées à la Division des services en français (DSF-FLSD@ottawa.ca; par téléphone au 580-2424, poste 21536).

Due to its technical nature, this document is available in English only. The City of Ottawa may translate this document or parts thereof on request. Requests for translation should be forwarded to the French Language Services Division (DSF-FLSD@ottawa.ca or 580-2424, ext. 21536).

A gas station is a facility where gasoline or other fuels are sold and where maintenance and minor automobile repair services may be conducted. A gas station consists of a gas bar with gasoline outlets and typically other associated facilities such as car washes, automotive services, convenience stores and food services.

Purpose and Application

The purpose of these guidelines is to provide urban design guidance at the planning application stage in order to assess, promote and achieve appropriate development of gas stations. Specific site context and conditions will be reviewed in conjunction with these guidelines.

These guidelines are to be applied throughout the city for all gas station development. When gas stations are located in areas identified as Mainstreets, the guidelines for Mainstreets also apply. When gas stations are located together with drive-through facilities, the guidelines for drive-through facilities also apply. Where a Community Design Plan or relevant planning study exists, these guidelines will augment those documents. They will also be used to help inform the preparation of new Community Design Plans.

Objectives

- To promote compatible gas station development that improves its existing or planned context;
- To protect and enhance the character and quality of the districts and neighbourhoods where gas stations are located;
- To enhance the public streets and contribute to a high quality public space;
- To create safe and controlled traffic circulation that balances the needs of vehicles and pedestrians; and
- To minimize impacts on adjacent land uses that could be caused by on-site activities.
