PAKISTAN Amna Afreen, 2022-02-25 I have written this book in an effort to explore how the history of Pakistan has resulted in the critical problems weighing down its education system The book examines the questions Why and how has a small elite class come to rule Pakistan And how has their rule worsened the country's problems The focus will be to critically examine the elements of the Pakistani national curriculum and madrasas and their effects on Pakistani society The book represents the fusion of my experiences in Pakistan with extensive literature analysis interviews and textbook analysis This research began when I came to the United States in January 2015 through the SAR program I wanted to know the answers to profoundly unsettling questions How can a society be so intolerant that a scholar educated solely in Pakistan is disregarded and assassinated while many Western educated scholars with traditional insular thoughts are not only appreciated but flourishing I wanted to know why Pakistani elites have so much power and freedom while lower classes are profoundly oppressed Elites who barely pay taxes have been in power for generations while those that pay taxes suffer from sky high inflation The influential religious leaders mostly belong to the elite class while their followers are mostly lower class Ruling families and social classes mostly control appointed positions Do those in power not have a responsibility to speak on issues of social justice rather than limiting themselves in claiming that theirs is the only true form of Islam Why don't they work to end the disparity of quality education between classes in Pakistan Instead many elites run their own lucrative elite Islamic schools More importantly why do the ulama which literally means those who possess knowledge ilm particularly of Islam maintain a tight hierarchical system in the madrasa Islamic seminary community that rarely allows poor intelligent students to attain leadership positions Why are the ulama silent in the face of ruthless murder of and discrimination against Pakistani minorities Book Review Pakistan Educational Reforms is a major study of education in Pakistan and its national and madrasa curriculum that fosters national and religious sectarian divisions intolerance and conflicts Dr Amna Afreen documents the political socio economic and religious causes limited government funding widespread poverty and illiteracy and the poor training and performance of teachers that have produced a failed educational system at urban and rural government and religious schools madrasa and offers a series of potential solutions and reforms John L Esposito University Professor and

Cooper, 2024-03-12 Lahore s Hall Road is the largest electronics market in Pakistan Once the center of film and media piracy in South Asia it now specializes in smartphones and accessories For Hall Road s traders conflicts between the economic promises and the moral dangers of film loom large To reconcile their secular trade with their responsibilities as devoted Muslims they often look to adjudicate the good or bad moral atmosphere mahaul that can cling to film and media Timothy P A Cooper examines the diverse and coexisting moral atmospheres that surround media in Pakistan tracing public understandings of ethical life and showing how they influence economic behavior Drawing on extensive ethnographic work among traders consumers collectors archivists cinephiles and cinephobes *Moral Atmospheres* explores varied views on what the relationship between film and faith should look sound and feel like for Pakistan s Muslim majority public Cooper considers the preservation and censorship of film in and outside of the state bureaucracy contestations surrounding heritage and urban infrastructure and the production and circulation of sound and video recordings among the country s religious minorities He argues that a focus on atmosphere provides ways of seeing moral thresholds as mutable and affective rather than as fixed ethical standpoints At once a vivid ethnography of a market street and a generative theorization of atmosphere this book offers fresh perspectives on moral experience and the relationship between religion and media

Fear and Loathing Worldwide Robert Alexander, Christine Isager, 2018-07-26 For more than 40 years the radically subjective style of participatory journalism known as Gonzo has been inextricably associated with the American writer Hunter S Thompson Around the world however other journalists approach unconventional material in risky ways placing themselves in the middle of off beat stories and relate those accounts in the supercharged rhetoric of Gonzo In some cases Thompson s influence is apparent even explicit in others writers have crafted their journalistic provocations independently only later to have that work labelled Gonzo In either case Gonzo journalism has clearly become an international phenomenon In *Fear and Loathing Worldwide* scholars from fourteen countries discuss writers from Europe the Americas Africa and Australia whose work bears unmistakable traces of the mutant Gonzo gene In each chapter Gonzo emerges as a powerful but unstable signifier read and practiced with different accents and emphases in the various national cultural political and journalistic contexts in which it has erupted Whether immersed in the Dutch crack scene exploring the Polish version of Route 66 following the trail of the 2014 South African General Election or committing unspeakable acts on the bus to Turku the writers described in this volume are driven by the same fearless disdain for convention and profound commitment to rattling received opinion with which the outlaw journalist Thompson scorched his way into the American consciousness in the

1960s 70s and beyond AIIMS Annual Report All-India Institute of Medical Sciences,2014 A New Idea of India Harsh Madhusudan,Rajeev Mantri,2025-07-30 For the better part of seven decades after independence the Nehruvian idea of India held sway in India s polity even if it was not always in consonance with the views of Jawaharlal Nehru himself Three key features constituted the crux of the Nehruvian way socialism which in practice devolved to corruption and stagnation secularism which boxed citizens into group membership and diluted individual identity and non alignment which effectively placed India in the Communist camp In the early Nineties India began a gradual withdrawal from this path But it was only in 2019 with Narendra Modi s second successive win in the general elections that this philosophy is finally being replaced by a worldview that acknowledges India as an ancient civilization even if a young republic and that sees citizens as equal for developmental and other purposes A New Idea of India constructs and expounds on a new framework beyond the rough and tumble of partisan politics Lucid in its laying out of ideas and policies while taking a novel position this book is illuminated by years of research and the authors first hand experiences as citizens entrepreneurs and investors of the vagaries and challenges of India This revised edition builds on some of the arguments of the earlier edition and brings things up to date

Singing with the Mountains William Sherman,2023-12-05 An illuminating story of a Sufi community that sought the revelation of God In the Afghan highlands of the sixteenth century

the messianic community known as the Roshaniyya not only desired to find God's word and to abide by it but also attempted to practice God's word and to develop techniques of language intended to render their own tongues as the organs of continuous revelation. As their critics would contend, however, the Roshaniyya attempted to make language do something that language should not do: infuse the semiotic with the divine. Their story thus ends in a tower of skulls, the proliferation of heresiographies that detailed the sins of the Roshaniyya and new formations of Afghan identity. In *Singing with the Mountains*, William E. B. Sherman finds something extraordinary about the Roshaniyya, not least because the first known literary use of vernacular Pashto occurs in an eclectic Roshani imitation of the Qur'an. The story of the Roshaniyya exemplifies a religious culture of linguistic experimentation. In the example of the Roshaniyya, we discover a set of questions and anxieties about the capacities of language that pervaded Sufi orders, imperial courts, groups of wandering ascetics, and scholastic networks throughout Central and South Asia. In telling this tale, Sherman asks the following questions: How can we make language shimmer with divine truth? How can letters grant sovereign power and form new ethnic identities and ways of belonging? How can rhyme bend our conceptions of time so that the prophetic past comes to inhabit the now of our collective moment? By analyzing the ways in which the Roshaniyya answered these types of questions and the ways in which their answers were eventually rejected as heresies, this book offers new insight into the imaginations of religious actors in the late medieval and early modern Persianate worlds.
