

CHAPTER 1: The Study of American Government

I. What is political power?

A. Two great questions about politics

1. Who governs: which people govern affects us
2. To which ends: in which ways government affects our lives
3. And then how the government makes decisions on a variety of issues.

B. Power

1. Definition: the ability of one person to cause another person to act in accordance with the first person's intentions
2. Text's concern: power as it is used to affect who will hold government office and how government will behave
3. Authority: the right to use power; not all who exercise political power have it
4. Legitimacy: what makes a law or constitution a source of right
5. Struggles over what makes authority legitimate
6. Necessity to be in some sense democratic in the United States today

II. What is democracy?

A. Where the "true interests" of the people are served, whether those people affect the decision making (democratic centralism) or not

1. China
2. Cuba
3. European, Asian, Latin American dictatorships

B. Aristotelian "rule of the many" (participatory democracy)

1. Fifth-century B.C. Greek city-state
2. New England town meeting
3. Community control in self-governing neighborhood
4. Citizen participation in formulating programs

C. Acquisition of power by leaders via competitive elections (representative democracy)
