Groundwater Resources Development and

Planning in the Semi-Arid Region Chaitanya B. Pande,Kanak N. Moharir,2021-05-27 This book addresses the various challenges in achieving sustainable groundwater development management and planning in semi arid regions with a focus on India and discusses advanced remote sensing and GIS techniques for the estimation and management of groundwater resources The book is timely as there is a need for a better understanding of the various tools and methods required to efficiently and sustainably meet the growing demand for clean surface and groundwater in developing countries and how these tools can be combined with other strategies in a multi disciplinary fashion to achieve this goal in water scarce regions To wit the book combines remote sensing and GIS techniques runoff modeling aquifer mapping land use and land cover analyses evapotranspiration estimation crop coefficients and water policy approaches This will be of use to academics policymakers social scientists and professionals involved in the various aspects of sustainable groundwater development planning and management

Natural Resources Deterioration in MENA Region Ayad M. Fadhil Al-Quraishi,Yaseen T. Mustafa,2024-05-03 Land deterioration drought desertification and water resources shrinkage threaten natural resources negatively impacting environmental economic and political stability The increasing occurrence of climate change extremes impacts land degradation processes soil erosion by water and wind and salinization The researchers have invested several years of scientific research in natural resources deterioration including soil degradation and erosion land degradation desertification and climate changes which are interesting enough However the link between science and policymaking appears to be less active as serious actions do not take fast The eighteen chapters of this book focus more on topics related to natural resources deterioration such as land degradation desertification drought climate change and analysis of numerous case studies This book presents experts overviews study results experiences and knowledge of natural resources deterioration in MENA countries It attracts researchers experts scholars scientists academics students practitioners graduates or anybody interested in land degradation desertification climate change and natural hazards that fall within natural resources deterioration Therefore researchers keep continuing to do their investigations and produce results that convince stakeholders and policymaking to act immediately towards protecting natural resources and their sustainability
