USC Supplemental Essay

Prompt:

Briefly relate a very important experience, risk taken, or dilemma that you have faced and its overall impact on you.

At one time, when I was eleven years old, I was happily living in a house together with my family. Then, I just learned that my stepbrother moved away, then, my brother. I was also told that the rest of the family would then follow. Where? Oman. Why? We will be sent there for religious and social studies. Before I even realized everything that was happening, we finished all of our packing and yard sales.

I was very excited and nervous at the same time to adjust to the new environment and culture. I never knew anything about Oman before. As a matter of fact, I only thought that Oman was located somewhere in South America. Little did I know that the world in Oman was exactly the opposite of the kind of world that I have back home.

The change in living location became a very important learning experience for me. We practice Christianity, but we have to live in a country where-in we need to be very discreet in our practice of our religion. As time passed by, I have learned to accept it. What I learned from that experience is that there is no other way to deal with change but to gracefully move with it.

When we came back to the United States after three years, I felt like a totally renewed person. I became extra sensitive to the surroundings, extending my hand to help people who are in need. I am planning to go back there again, this time, alone, in order to see what I can do more after I finish my studies here in the US. I will equip myself with skills first in order to be able to help out.
