Ronald Roesch,Alana N. Cook,2017-05-18 Handbook of Forensic Mental Health Services focuses on assessment treatment and policy issues regarding juveniles and adults in the criminal and civil systems Uniquely this volume is designed for professionals who deliver mental health services rather than researchers Just like its parent series its goal revolves around improving the quality of mental health care services in forensic settings It achieves this by integrating the findings related to clinical practice administration and policy from trends and best practice internationally that mental health professionals can implement Space Unveiled Carla Jackson Bell,2014-08-01 Since the early 1800s African Americans have designed signature buildings however in the mainstream marketplace African American architects especially women have remained invisible in architecture history theory and practice Traditional architecture design studio education has been based on the historical models of the Beaux Arts and the Bauhaus with a split between design and production teaching As the result of current teaching models African American architects tend to work on the production or technical side of building rather than in the design studio It is essential to understand the centrality of culture gender space and knowledge in design studios Space Unveiled is a significant contribution to the study of architecture education and the extent to which it has been sensitive to an inclusive cultural perspective The research shows that this has not been the case in American education because part of the culture remains hidden **Sustainable Construction** Charles J. Kibert,2016-03-29 The leading green building reference updated with the latest advances in the field Sustainable Construction is the leading reference for the design construction and operation of high performance green buildings With broad coverage including architecture engineering and construction this book nevertheless delivers detailed information on all aspects of the green building process from materials selection to building systems and more This new fourth edition has been updated to reflect the latest codes and standards including LEED v4 and includes new coverage of carbon accounting The discussion has been updated to align with the current thinking on economics climate change net zero buildings and more with contributions by leaders in the field that illustrate the most recent shifts in thinking and practice Ancillary materials including an instructor s manual and PowerPoint presentations for each chapter help bring this clear and up to date information into the classroom making this book a valuable reference for working construction professionals Also Interactive graphics found throughout the course help activate the content and highlight key concepts for students Sustainable construction has gone mainstream and will one day be the industry norm This book provides a comprehensive reference to all aspects of a project to show you how green building concepts and principles apply throughout the design and construction process Get up to date on the latest green building codes and standards Learn about the newest technology in green building materials Adopt the best practices in procurement and delivery systems Apply sustainability concepts to all aspects of construction and design Green buildings
