Urban Composition Developing Community Through Design Mark C Childs:

Urban Composition Mark C. Childs, 2013-07-02 Cities and towns are among humanity's greatest achievements yet no single individual or organization creates them. The buildings, streets and gardens of even a small town embody substantial investments of money, natural resources and political capital. Much more than the sum of its parts, a settlement's vitality comes from its collective composition. Sometimes the cities and towns that emerge are glorious places but too frequently they have only fragments of greatness or are soulless and environmentally unhealthy. Our new Architecture Brief Urban Composition shows architects, planners, artists and engineers of individual projects how they can best fulfill their public trust to help make meaningful urban places. Each chapter contains a set of design queries followed by a discussion, illustrations and references for further research. This accessible primer on urban design provides guidelines for designing buildings or plans for large cities or small towns. Urban Composition showcases projects across the United States and internationally in metropolitan areas such as Chicago, Seattle and London and small communities such as Marfa, Texas.

Designing Relationships: The Art of Collaboration in Architecture Andrew Pressman, 2014-01-03 In today's dynamic practice environment, collaboration and teamwork skills are increasingly critical to the successful completion of building projects. Indeed, it is the careful nurturing of comradeship among complementary but distinctive egos that drives creativity underlying the hi-tech algorithms that help shape complex projects. *Designing Relationships: The Art of Collaboration in Architecture* focuses on the skill set necessary to facilitate effective teamwork and collaboration among all stakeholders, no matter what project delivery mode or technology is deployed. This book provides valuable guidance on how to design and construct buildings in a team context from inception to completion. It is the less tangible elements of collaboration and teamwork that provide the magic that transforms the most challenging projects into great works of architecture, and it is these more nuanced and subtle skills which the book brings to the fore. Showing examples of best and worst practice to illustrate the principles with real-life situations, this book presents the reader with an approach that is flexible and applicable to their everyday working life.

The City Reader Richard T. LeGates, Frederic Stout, 2015-07-16 The sixth edition of the highly successful *The City Reader* juxtaposes the very best classic and contemporary writings on the city to provide the comprehensive mapping of the terrain of Urban Studies and Planning, old and new. *The City Reader* is the anchor volume in the Routledge Urban Reader Series and is now integrated with all ten other titles in the series. This edition has been extensively updated and expanded to reflect the latest thinking in each of the disciplinary areas included and in topical areas such as compact cities, urban history, place making, sustainable urban development, globalization, cities and climate change, the world city network, the impact of technology on cities, resilient cities, cities in Africa and the Middle East and urban theory. The new edition places greater emphasis on cities in the developing world, globalization and the global city system of the future. The plate sections have been revised and updated. Sixty generous selections are included, forty-four from the fifth

edition and sixteen new selections including three newly written exclusively for The City Reader The sixth edition keeps classic writings by authors such as Ebenezer Howard Ernest W Burgess LeCorbusier Lewis Mumford Jane Jacobs and Louis Wirth as well as the best contemporary writings of among others Peter Hall Manuel Castells David Harvey Saskia Sassen and Kenneth Jackson In addition to newly commissioned selections by Yasser Elshestawy Peter Taylor and Lawrence Vale new selections in the sixth edition include writings by Aristotle Peter Calthorpe Alberto Camarillo Filip DeBoech Edward Glaeser David Owen Henri Pirenne The Project for Public Spaces Jonas Rabinovich and Joseph Lietman Doug Saunders and Bish Sanyal The anthology features general and section introductions as well as individual introductions to the selected articles introducing the authors providing context relating the selection to other selection and providing a bibliography for further study The sixth edition includes fifty plates in four plate sections substantially revised from the fifth edition

Designing Suburban Futures June Williamson, 2013-05-07 Suburbs deserve a better more resilient future June Williamson shows that suburbs aren't destined to remain filled with strip malls and excess parking lots they can be reinvigorated through inventive design Drawing on award winning design ideas for revitalizing Long Island she offers valuable models not only for U S suburbs but also those emerging elsewhere with global urbanization Williamson argues that suburbia has historically been a site of great experimentation and is currently primed for exciting changes Today dead malls aging office parks and blighted apartment complexes are being retrofitted into walkable sustainable communities Williamson shows how to expand this trend highlighting promising design strategies and tactics She provides a broad vision of suburban reform based on the best schemes submitted in Long Island's highly successful Build a Better Burb competition Many of the design ideas and plans operate at a regional scale tackling systems such as transit aquifer protection and power generation While some seek to fundamentally transform development patterns others work with existing infrastructure to create mixed use shared networks *Designing Suburban Futures* offers concrete but visionary strategies to take the sprawl out of suburbia creating a vibrant new suburban form It will be especially useful for urban designers architects landscape architects land use planners local policymakers and NGOs citizen activists students of urban design planning architecture and landscape architecture
