of the Bison Glen R. Stott, 2002-08-13 As the lambent light from the slumbering fire dances across the roof of the cave a young girl wakes from a dream Kec's dream tells her that her clan is in jeopardy and that Mother Earth expects her to do something to save her people A magic child will be sent to help her Far away Strong Branch a powerful Shaman of his people has his own dream The Great Spirit sends him a warning about a future of conflict and killing Kec's people are very simple but they are strong and powerful enough to have survived the ice ages of Pleistocene Europe by force for over one hundred thousand years Strong Branch's people are late comers from an alien world far to the South They bring an advanced technology that allows them to utilize the environment in ways Kec's people never could As the population of the aliens has grown over a period of more than twenty thousand years the stress on the environment has become critical Kec and Strong Branch must play their parts in a microcosm of the greater struggle for survival The conclusion of their struggle will establish a new story and a new history for each of their peoples

After Atlantis Andrew Welburn, 2025-11-24 A revolution is reshaping our understanding of human origins Gone is the old narrative of slow animal like evolution Instead we now see humanity's emergence as marked by explosive transformations like the Palaeolithic spiritual leap that gave birth to cave art a profound expression of shamanistic visionary consciousness Even the long misunderstood Neanderthals are now recognized as integral to our story At the heart of this new prehistory lies the world of the cave artists whose vision shaped the essential scope of human existence along with its inherent dangers and excesses As explored in Andrew Welburn's acclaimed *Neanderthals and Atlantis* Rudolf Steiner and the New Prehistory nominated for the 2025 ISSR International Book Prize Steiner's linking of the Atlantis legend and the betrayal of its Mysteries to this era gains startling new relevance But the story does not end there

Steiner revealed how the great cultures of antiquity India Persia Egypt and Mesopotamia were not merely outdated belief systems but vital stages in humanity's evolution of consciousness These traditions planted within us the seeds of moral sacrifice commitment to a better world and the courage to confront life and death Today cutting edge prehistorians are abandoning the myth of culture as a patchwork of conquests embracing instead a Palaeolithic Continuity Model that resonates deeply with Steiner's vision In this illuminating second volume Welburn bridges the gap between the Ice Age's transformative crisis and a bold new interpretation of modernity Drawing on Steiner's insights including the profound Moses Mystery he reveals how the Bible and Christianity are illuminated by the hidden currents of human consciousness A groundbreaking work that redefines our past to better understand our future **Zygon** ,2008 Conceived in Sin George W Barclay Jr,George Barclay Jr,2006-07 This is the Bible for the twenty first century and requires a scholarly knowledge of science and metaphysics Earth Sciences will be taught in the third grade Quantum Physics General Relativity and the Theory of Everything will be taught in the eighth grade Religion will merge with science philosophy and metaphysics and be taught as Social Science Dr Amy Omikami Professor of Astrophysics USN Life was a Cosmological imperative We all came from star stuff Doctrinal seminaries are obsolete absurd and boring Our university will present philosophy religion and science as a single mosaic of cognitive experience Maria Tantalía Present of Board USN **The Paradox Men** Charles L. Harness,2015-07-30 Set after the Third Great War North and South America are united into one country Imperial America A slave state run by a small noble elite who flaunt their wealth by using and abusing the one commodity that only the rich can have human labour But working underground persecuted by the police is an organization dedicated to the overthrow of government and the existing way of life and the establishment of freedom The Society of Thieves was the only organization that flouted authority in America Imperial they robbed the rich to buy freedom for the slaves They were well equipped and trained for their job and had friends and informers in high places ready to reveal where the wealth of the nobles was hidden And Alar was the best Thief of them all for he had senses not found in ordinary men senses that accurately warned him when danger was near But Alar had amnesia and did not know his true identity though sometimes he sensed that there was a purpose in his actions that was not entirely his own volition When Keiris wife of the Imperial Chancellor saw him she sensed that he was something special and helped him to elude pursuit even though it put her own life in danger And in trips to the Moon and even the Sun itself Alar begins to see what part he is destined to play in the struggle for men's freedom *In the Beginning* Jaime Reyes,2018-04-27 It is 65 000 BC and Neanderthals believe in spirit gods Og is an ancient exceptionally intelligent Neanderthal As he sits in his cave sheltered from the vicious storm that rages outside he knows there must be a better way to survive Now all he has to do is convince his tribal troupe that he has the answers to their fears and apprehensions After he convinces Chief Olo that he can appease the spirit gods and end the storm by performing a ritual he learned from his father Og puts on a colorful show with rattles bones and face paint When the storm subsides and it becomes

evident that Og displays some power over the elements he begins to receive respect from most tribal members except the insecure chief who is threatened by him But when Og saves the chief's life he makes way for Og to become the tribe's first fully anointed priest and create a legend whose idea of persuasive idolization will spread throughout the old and new world and carry on into the future In the Beginning shares the compelling tale of a Neanderthal man's journey as he becomes spiritual leader of his clan and passes his knowledge on to his descendants so they can continue to benefit

To Be Human Neal Monroe Griffith, 2012-12-08 During the years before the glacial maximum of the last major ice age areas of southern Europe were inhabited by both Neandertals and more advanced people often referred to as Cro Magnon Neandertals were short stocky people heavily muscled adapted for living in cold climates They were intelligent and adaptable as their brains were larger than their homo sapiens counterparts The Cro Magnons were more technically advanced than their Neandertal brethren They were taller slimmer and better suited for warmer climates However their intellect and superior technology allowed them to succeed even when the environmental conditions became progressively harsher As the ice continued to encroach on their hunting grounds the Cro Magnons were forced to move into new areas some of which were already inhabited by the Neandertals This meant unequivocal contact between the two species of humans The account in this book describes how that contact may have played out
