What is Spiritualism?

Spiritualism means different things to different people. Newcomers to spiritualism typically already know what we believe in life after death, but there is more to spiritualism than this. It is a religion recognised in law, although some spiritualists consider it more a philosophy of life. Most spiritualists agree to that be a spiritualist is to be involved in a life-long journey of spiritual development and the betterment of self.

As a spiritualist centre, we provide regular demonstrations of mediumship. Every medium aims to provide evidence of the existence of spirit within us all, and the continuation of every soul beyond physical death.

The Seven Principles of Spiritualism

1. The Fatherhood of God
2. The Brotherhood of Man
3. The Communion of Spirits and the Ministry of Angels
4. The Continuous Existence of the Human Soul
5. Personal Responsibility
6. Compensation and Retribution hereafter for all the good and evil deeds we have done on earth
7. Eternal progress open to every human soul.

Let's briefly look at each of these in turn:

The Fatherhood of God

Fundamental to the religious philosophy of spiritualism is the acceptance of a divine energy. This does not necessarily mean God as a Christian might use the word - instead, we mean a force which has created all that there is and sustains all that there is. This divine energy exists within and around everything, including each one of us. We are children of this

The Brotherhood of Man

Since we are all part of the universal divine energy, we are all one family. An important part of spiritualism is the willingness to understand and accept others, and to offer help and support to all, regardless of religion, race or creed.

The Communion of Spirits and the Ministry of Angels

Spiritualists believe that communication between spirit and ourselves is a natural, innate ability, and to use that this communication is a normal, natural part of life. Mediums train to develop this ability to a high level in order to be able to provide evidence from the spirit world of the continuation of life, but all of us can access the divine spark within ourselves. Angels bring wisdom and guidance around us, and assist those who are dedicated to the betterment of mankind.

The Continuous Existence of the Human Soul

Since spirit is divine energy, it is indestructible. Energy cannot be destroyed, it can only change its form. We believe that after physical death, our physical bodies are left behind while the soul continues to exist in a different dimension. Individual personalities shine on, unchanged by what we call death.

Personal Responsibility

Spiritualists believe in total free will, and that all of us can use our lives in the way we see fit. We can make good decisions; we can make bad ones - but ultimate responsibility for how we behave lies with us alone. We do not believe that we can be absolved of our wrongdoings on earth, or pass responsibility for our actions to anyone else.

Compensation and Retribution Hereafter for all the Good and Evil Deeds Done on Earth

The laws of cause and effect, we believe, operate both on earth and in the spirit world. Each choice we make affects our soul's growth. We believe that when our physical bodies die, we do not face a divine judgment, but that each soul does take part in a process of self-assessment, learning
