Spring Chicken Bill Gifford, 2024-09-24 An enlightening book and a terrific read this New York Times bestseller explores the anti aging science revealing the truth behind getting old Wall Street Journal Spring Chicken is a high energy ride through the latest research popular mythology and ancient wisdom on mankind s oldest obsession How can we live longer And better In his funny self deprecating voice veteran reporter Bill Gifford takes readers on a fascinating journey through the science of aging from the obvious signs like wrinkles and baldness right down into the innermost workings of cells We visit cutting edge labs where scientists are working to hack the aging process Gifford reveals why some people live past one hundred without even trying what has happened with resveratrol the red wine pill that made headlines a few years ago how your fat tissue is trying to kill you and how it s possible to unlock longevity promoting pathways that are programmed into our very genes Gifford separates the wheat from the chaff as he exposes hoaxes and scams foisted upon an aging society and arms readers with the best possible advice on what to do what not to do and what life changing treatments may be right around the corner A riveting account of the most important change of the last century the doubling of our lifespans and an intimate vision of what it will take to not only keep that trend going but keep ourselves healthy and vibrant as we age Steven Johnson New York Times bestseller of How We Got to Now An entertaining narrative of the perils of getting old Kirkus Reviews A Joosr Guide to ... Spring Chicken by Bill Gifford Joosr, 2016 Choosing to Be Ridiculously Healthy and Unreasonably Happy Greg Brigman PhD, 2020-06-11 A science based and playfully written guide to optimize wellness and slow the aging process at the cellular level This easy read is your personalized curated research summary on five essential areas for being ridiculously healthy and unreasonably happy **Aging in America** Lawrence R. Samuel, 2017-03 Aging in America traces the story of aging over the course of the last half century demonstrating our culture s negative attitudes toward a natural and inevitable human process and offering a deep understanding of the subject s past in order to help anticipate its future

Transformed States Martin Halliwell, 2024-11-15 Honourable Mention British Association of American Studies Book Award Transformed States offers a timely history of the politics ethics medical applications and cultural representations of the biotechnological revolution from the Human Genome Project to the COVID 19 pandemic In exploring the entanglements of mental and physical health in an age of biotechnology it views the post Cold War 1990s as the horizon for understanding the intersection of technoscience and culture in the early twenty first century The book draws on original research spanning the presidencies of George H W Bush and Joe Biden to show how the politics of science and technology shape the medical uses of biotechnology Some of these technologies reveal fierce ideological conflicts in the arenas of cloning reproduction artificial intelligence longevity gender affirmation vaccination and environmental health Interweaving politics and culture the book illustrates how these health issues are reflected in and challenged by literary and cinematic texts from Oryx and Crake to Annihilation and from Gattaca to Avatar By assessing the complex relationship between federal politics and the biomedical

industry Transformed States develops an ecological approach to public health that moves beyond tensions between state governance and private enterprise To that end Martin Halliwell analyzes thirty years that radically transformed American science medicine and policy positioning biotechnology in dialogue with fears and fantasies about an emerging future in which health is ever more contested Along with the two earlier books Therapeutic Revolutions 2013 and Voices of Mental Health 2017 Transformed States is the final volume of a landmark cultural and intellectual history of mental health in the United States journeying from the combat zones of World War II to the global emergency of COVID 19 **Be Bold** Marilyn Willison,2019-08-08 Former international journalist and Los Angeles Times Health and Fitness editor Marilyn Murray Willison approaches aging with an optimistic curiosity and an undisguised enthusiasm Her syndicated column Positive Aging includes practical information from health to family legacy to gratitude to travel inspirational stories current events and personal anecdotes she hopes will inspire other seniors to age with grace and get the most out of each and every day This is a collection of her columns from 2016 to 2018 **Storied Health and Illness** Jill Yamasaki,Patricia Geist-Martin,Barbara F. Sharf,2016-07-01 Health and illness are storied experiences that necessarily entail personal cultural and political complexities For all of us communicating about health and illness requires a continuous negotiation of these complexities and a delicate balance between what we learn about the biology of disease from providers and our own very personal subjective experiences of being ill Storied Health and Illness brings together dozens of noteworthy scholars both established and emerging in a provocative collection that embraces narrative ways of knowing to think about analyze and reconsider our own and others health beliefs behaviors and communication Comprehensive content reflects the editors substantial research in integrative health narrative care and innovative ways of improving well being and quality of life in personal relationships healthcare the workplace and community settings Unique narrative approaches to the study of health communication include 14 chapters written by 22 contributors who use engaging stories from their own research or personal experience to introduce and ground foundational communication concepts in healthcare health promotion community support organizational wellness and other health related sites of interest Compelling stories of individuals living with the inherent challenges and unexpected opportunities of mental illness addiction aging cancer dialysis sexual harassment miscarriage obesity alopecia breastfeeding health threats to immigrant workers developmental differences and youth gun violence 36 Health Communication in Action HCIA sidebars that highlight applied research of innovative health communication scholars in their own words and then prompt readers to think more deeply about their own perspectives and experiences Theorizing Practice boxes that encourage readers to reflect on stories that describe significant experiences in their own and others lives as they consider assumptions and enlarge their viewpoints in previously unimagined ways **Exercised** Daniel E. Lieberman,2021-12-07 If exercise is healthy so good for you why do many people dislike or avoid it These engaging stories and explanations will revolutionize the way you think about exercising not to mention sitting sleeping sprinting weight lifting

playing fighting walking jogging and even dancing Strikes a perfect balance of scholarship wit and enthusiasm Bill Bryson New York Times best selling author of *The Body* If we are born to walk and run why do most of us take it easy whenever possible Does running ruin your knees Should we do weights cardio or high intensity training Is sitting really the new smoking Can you lose weight by walking And how do we make sense of the conflicting anxiety inducing information about rest physical activity and exercise with which we are bombarded In this myth busting book Daniel Lieberman professor of human evolutionary biology at Harvard University and a pioneering researcher on the evolution of human physical activity tells the story of how we never evolved to exercise to do voluntary physical activity for the sake of health Using his own research and experiences throughout the world Lieberman recounts without jargon how and why humans evolved to walk run dig and do other necessary and rewarding physical activities while avoiding needless exertion Exercised is entertaining and enlightening but also constructive As our increasingly sedentary lifestyles have contributed to skyrocketing rates of obesity and diseases such as diabetes Lieberman audaciously argues that to become more active we need to do more than medicalize and commodify exercise Drawing on insights from evolutionary biology and anthropology Lieberman suggests how we can make exercise more enjoyable rather than shaming and blaming people for avoiding it He also tackles the question of whether you can exercise too much even as he explains why exercise can reduce our vulnerability to the diseases mostly likely to make us sick and kill us

Methuselah's Zoo Steven N. Austad, 2023-08-15 Stories of long lived animal species from thousand year old tubeworms to 400 year old sharks and what they might teach us about human health and longevity Opossums in the wild don't make it to the age of three our pet cats can live for a decade and a half cicadas live for seventeen years spending most of them underground Whales however can live for two centuries and tubeworms for several millennia Meanwhile human life expectancy tops out around the mid eighties with some outliers living past 100 or even 110 Is there anything humans can learn from the exceptional longevity of some animals in the wild In Methuselah's Zoo Steven Austad tells the stories of some extraordinary animals considering why for example animal species that fly live longer than earthbound species and why animals found in the ocean live longest of all Austad the leading authority on longevity in animals argues that the best way we will learn from these long lived animals is by studying them in the wild Accordingly he proceeds habitat by habitat examining animals that spend most of their lives in the air comparing insects birds and bats animals that live on and under the ground from mole rats to elephants and animals that live in the sea including quahogs carp and dolphins Humans have dramatically increased their lifespan with only a limited increase in healthspan we're more and more prone to diseases as we grow older By contrast these species have successfully avoided both environmental hazards and the depredations of aging
