Sponsor Forms Help For Heroes 2014:

Brand Antarctica Hanne Elliot Fønss Nielsen, 2023-12 Antarctica is and has always been very much for sale Whales seals and ice have all been marketed as valuable commodities but so have the stories of explorers The modern media industry developed in parallel with land based Antarctic exploration and early expedition leaders needed publicity to generate support for their endeavors Their lectures narratives photographs and films were essentially advertisements for their adventures At the same time popular media began to use the newly encountered continent to draw attention to commercial products These advertisements both trace the commercialization of Antarctica and reveal how commercial settings have shaped the dominant imaginaries of the place By contextualizing and analyzing Antarctic advertisements from the late nineteenth century to the present Brand Antarctica identifies five key framings of the South Polar continent a place for heroes a place of extremity a place of purity a place to protect and a place that transforms Demonstrating how these conceptual framings of Antarctica in turn circulate through our culture Hanne Elliot Fønss Nielsen challenges common assumptions about Antarctica's past and present encouraging readers to rethink their own relationship with the Far South **Hidden Heroes** Rajeev Ramchand, Terri Tanielian, Michael P. Fisher, Christine Anne Vaughan, Thomas E. Trail, Caroline Epley, Phoenix Voorhies, Michael William Robbins, Eric Robinson, Bonnie Ghosh-Dastidar, 2014-04-01 Little has been reported about military caregivers the population of those who care for wounded ill and injured military personnel and veterans This report summarizes the results of a study designed to describe the magnitude of military caregiving in the United States today as well as to identify gaps in the array of programs policies and initiatives designed to support military caregivers **The Advertising Handbook** Sean Brierley, Jonathan Hardy, Iain Macrury, Helen Powell, 2018-02-28 The Advertising Handbook provides a critical introduction to advertising and marketing practices today Contributions from leading international scholars and practitioners offer extended coverage of the contemporary shifts and pressures reshaping the marketing communications or advertising and marketing industries and their relationship to the consumer Profiles and case studies illustrate innovation and diversification among advertising marketing and public relations companies Discussion questions aid learning and encourage debate about the activities and influence of advertising today This Fourth Edition explores the growing significance of the influence of Big Data and automation in digital advertising tracking and profiling users across digital communications for targeted and personalised marketing communications the rise of media and advertising integration through sponsored content product placement native advertising and other forms of branded content the dynamic shifts in ad spending and media advertising relationships across legacy media online and social media and the complex profile of consumer behaviour that produces new challenges for brands and branding Fully revised and updated this new edition of The Advertising Handbook is a comprehensive and accessible guide to contemporary advertising and marketing theory and practice designed to meet the requirements interests and terms of reference of the most recent generation of

media and advertising students **Ukraine** Serhy Yekelchuk, 2020 Conventional wisdom dictates that Ukraine's political crises can be traced to the linguistic differences and divided political loyalties that have long fractured the country. However, this theory obscures the true significance of Ukraine's recent civic revolution and the conflict's crucial international dimension. The 2013-14 Ukrainian revolution presented authoritarian powers in Russia with both a democratic and a geopolitical challenge. In reality, political conflict in Ukraine is reflective of global discord stemming from differing views on state power, civil society, and democracy. Ukraine's sudden prominence in American politics has compounded an already widespread misunderstanding of what is actually happening in the nation. In the American media, Ukraine has come to signify an inherently corrupt place rather than a real country struggling in the face of great challenges. *Ukraine: What Everyone Needs to Know* is an updated edition of Serhy Yekelchuk's 2015 publication *The Conflict in Ukraine*. It addresses Ukraine's relations with the West, particularly the United States, from the perspective of Ukrainians. The book explains how independent Ukraine fell victim to crony capitalism, how its people rebelled twice in the last two decades in the name of democracy and against corruption, and why Russia reacted so aggressively to the strivings of Ukrainians. Additionally, it looks at what we know about alleged Ukrainian interference in the 2016 US presidential election, the factors behind the stunning electoral victory of the political novice Volodymyr Zelensky, and the ways in which the events leading to the impeachment proceedings against President Donald Trump have changed the Russia-Ukraine-US relationship. This volume is essential reading for anyone who wants to understand the forces that have shaped contemporary politics in this increasingly important part of Europe, as well as the international background of the impeachment proceedings in the US.

Senses of the Empire Eleanor Betts, 2017-02-24 The Roman empire afforded a kaleidoscope of sensations. Through a series of multisensory case studies centred on people, places, buildings, and artefacts, and on specific aspects of human behaviour, this volume develops ground-breaking methods and approaches for sensory studies in Roman archaeology and ancient history. Authors explore questions such as what it felt like and symbolised to be showered with saffron at the amphitheatre, why the shape of a dancer's body made him immediately recognisable as a social outcast, how the dramatic gestures, loud noises, and unforgettable smells of a funeral would have different meanings for members of the family and for bystanders, and why feeling the weight of a signet ring on his finger contributed to a man's sense of identity. A multisensory approach is taken throughout, with each chapter exploring at least two of the senses of sight, hearing, smell, taste, and touch. The contributors' individual approaches vary, reflecting the possibilities and the wide application of sensory studies to the ancient world. Underlying all chapters is a conviction that taking a multisensory approach enriches our understanding of the Roman empire, but also an awareness of the methodological problems encountered when reconstructing past experiences.
