## Spring 2015 Istep Scoring Guide:

A Guide to Leading and Managing Indiana School Facilities Tom Dykiel, Charles Hobbs, William E. Roberson, 2009-08  
When school buildings are aging a decision must be made as to whether to continue to maintain the existing building renovate building or build new Very seldom is extending the existing buildings life over building a new building If renovation costs exceed 50% of the cost of new construction it is better to build instead of renovating The taxpayers in your community will have much to say on whether to renovate or build new Much emphasis should be given to taxpayer input before the school board makes a final decision School administrators are responsible to the community for maintaining school buildings and they owe an explanation to the community of what has been done to protect existing school buildings This book is developed to help aspiring teachers who want to become principals business managers or superintendents that existing buildings need to be properly maintained and functional and can continue to serve the public for many years to come
