Manual of Crime Scene Investigation
Anna Barbaro, Amarnath Mishra, 2022-10-28

Over the past several years, myriad manuals on crime scene investigations have been published, with each focusing on select or partial aspects of the investigation. Crime scene investigation done right is a multi-faceted process that requires various forms of evidence to be collected, examined, and analyzed. No book available has addressed procedures to present global best practices by assembling a collection of international experts to address such topics. *Manual of Crime Scene Investigation* is a comprehensive collaboration of experts writing on their particular areas of expertise as relates to crime scenes, evidence, and crime scene investigation. The book outlines best practices in the field, incorporating the latest technology to collect, preserve, and enhance evidence for appropriate analysis. Various types of forensic evidence are addressed, covering chain of custody, collection, and utility of such evidence in casework investigations and for use in court. The approach and use of international contributor experts will appeal to a broad audience and be of use to forensic practitioners and the forensic science community worldwide.

Key features:

- Assembles an international team of contributing author experts to present the latest developments in their crime scene field of specialty.
- Examines global best practices and what are consistently the most reliable tactics and approach to crime scene evidence collection, preservation, and investigation.
- Provides numerous photographs and diagrams to clearly illustrate chapter concepts.

Manual of Crime Scene Investigation serves as a vital resource to professionals in police science and crime scene investigations, private forensic institutions, and academics researching how better real-world application of techniques can improve the reliability and utility of evidence upon forensic and laboratory analysis.

Forensic Science and Humanitarian Action
Roberto C. Parra, Sara C. Zapico, Douglas H. Ubelaker, 2020-01-28

Widens traditional concepts of forensic science to include humanitarian, social, and cultural aspects. Using the preservation of the dignity of the deceased as its foundation, *Forensic Science and Humanitarian Action: Interacting with the Dead and the Living* is a unique examination of the applications of humanitarian forensic science. Spanning two comprehensive volumes, the text is sufficiently detailed for forensic practitioners yet accessible enough for non-specialists and discusses both the latest technologies and real-world interactions. Arranged into five sections, this book addresses the management of the dead across five major areas in humanitarian forensic science. Volume One presents the first three of these areas: History, Theory, Practice, and Legal Foundation. Basic Forensic Information to Trace Missing Persons and Stable Isotopes Forensics. Topics covered include Protection of The Missing and the Dead Under International Law, Social, Cultural, and Religious Factors in Humanitarian Forensic Science, Posthumous Dignity and the Importance in Returning Remains of the Deceased, The New Disappeared Migration, and Forensic Science Stable Isotope Analysis in Forensic

Anthropology Volume Two covers two further areas of interest DNA Analysis and the Forensic Identification Process It concludes with a comprehensive set of case studies focused on identifying the deceased and finding missing persons from around the globe including Forensic Human Identification from an Australian Perspective Skeletal Remains and Identification Processing at the FBI Migrant Deaths along the Texas Mexico Border Humanitarian Work in Cyprus by The Committee on Missing Persons CMP Volc n De Fuego Eruption Natural Disaster Response from Guatemala Drawing upon a wide range of contributions from respected academics working in the field Forensic Science and Humanitarian Action is a unique reference for forensic practitioners communities of humanitarian workers human rights defenders and government and non governmental officials
