The Spiritual Anatomy of Emotion Michael A. Jawer, 2009-05-21 A cutting edge examination of feelings not thoughts as the gateway to understanding consciousness Contends that emotion is the greatest influence on personality development Offers a new perspective on immunity stress and psychosomatic conditions

Explains how emotion is key to understanding out of body experience apparitions and other anomalous perceptions Contemporary science holds that the brain rules the body and generates all our feelings and perceptions Michael Jawer and Dr Marc Micozzi disagree They contend that it is our feelings that underlie our conscious selves and determine what we think and how we conduct our lives The less consciousness we have of our emotional being the more physical disturbances we are likely to have from ailments such as migraines fibromyalgia chronic fatigue and post traumatic stress to anomalous perceptions such as apparitions and involuntary out of body experiences Using the latest scientific research on immunity sensation stress cognition and emotional expression the authors demonstrate that the way we process our feelings provides a key to who is most likely to experience these phenomena and why They explain that emotion is a portal into the world of extraordinary perception and they provide the studies that validate the science behind telepathic dreams poltergeists and ESP The Spiritual Anatomy of Emotion challenges the prevailing belief that the brain must necessarily rule the body Far from being by products of neurochemistry the authors show that emotions are the key vehicle by which we can understand ourselves and our interactions with the world around us as well as our most intriguing and perennially baffling experiences

In an Unspoken Voice Peter A. Levine, Ph.D., 2012-10-30 Unraveling trauma in the body brain and mind a revolution in treatment Now in 17 languages In this culmination of his life s work Peter A Levine draws on his broad experience as a clinician a student of comparative brain research a stress scientist and a keen observer of the naturalistic animal world to explain the nature and transformation of trauma in the body brain and psyche In an Unspoken Voice is based on the idea that trauma is neither a disease nor a disorder but rather an injury caused by fright helplessness and loss that can be healed by engaging our innate capacity to self regulate high states of arousal and intense emotions Enriched with a coherent theoretical framework and compelling case examples the book elegantly blends the latest findings in biology neuroscience and body oriented psychotherapy to show that when we bring together animal instinct and reason we can become more whole human beings
