Document-Based Assessment Activities for History Walch Education, **Social Studies Teaching Activities**
Books Gary Lare,2006 An annotated listing of activities books for use with social studies curriculums focusing on elementary and middle school grades arranged by curriculum area topic and grade level Includes contact information for publishers and distributors of appropriate books and an index The Island on an Island Francesco Buscemi,2025-04-01 What was a holiday in the Costa Smeralda of the 1960s or 1990s really like Can we recreate reimagine or re experience that feeling in a world of rapid change The Island on an Island A Cultural History of Costa Smeralda examines how northeastern Sardinia one of the most stunning areas in the world became an artificial paradise constantly adapting to present tourists with the latest version of paradise they desire By viewing tourism not merely as a break from daily life but as an ever evolving current at the heart of culture and society this book explores how Costa Smeralda has never remained fixed The media system has played a pivotal role in this process since the 1990s media itself has become the very substance of what is communicated perfectly illustrating Jean Baudrillard s insight that the media produce maps of reality that overlap the real territory to the point where people no longer perceive actual reality but only its mediated forms Over time numerous layers both literal and figurative have obscured the original land that peasants and shepherds once sold cheaply to wealthy entrepreneurs In tandem media and tourism have consistently created an ideal environment for those in power Now that this trend is slowing no one knows which new paradise will emerge in Costa Smeralda It is clear however that emerging forms of cultural experiential and sustainable tourism share little in common with today s Costa Smeralda suggesting that its current model is in need of rethinking *Teaching History and Social Studies to English Language Learners* Luciana C. de Oliveira,Kathryn M. Obenchain,2017-12-12 This book investigates the preparation of secondary history and social studies SS teachers to teach English language learners ELLs in twenty first century classrooms This edited collection focuses on the ways in which pre service and in service teachers have developed or may develop instructional effectiveness for working with ELLs in the secondary history and social studies classroom The authors address a variety of standards and content examples including the National Council for Social Studies C3 Framework and Curriculum Standards the Common Core State Standards for English Language Arts and content from history geography and civics This volume is part of a set of four edited books focused on teaching the key content areas to English language learners Unpuzzling History with Primary Sources

Jeremiah Clabough, Thomas N. Turner, William B. Russell, Stewart Waters, 2015-09-01 Recent advances in technology have created easy access for classroom teachers and students alike to a vast store of primary sources This fact accompanied by the growing emphasis on primary documents through education reform movements has created a need for active approaches to learning from such sources Unpuzzling History with Primary Sources addresses this need It looks at the role that primary sources can play in a social studies curriculum in the 21st century Each chapter deals with a different aspect of teaching primary sources Each chapter includes a discussion of key issues model activities and resources for upper elementary through high school teachers A model lesson plan also appears at the end of most chapters Chapter one presents a unique perspective on the nature of history and primary sources This is followed by chapters on how historical thinking and inquiry relate to primary sources Other chapters deal with individual types of primary sources A glance at the table of contents will certainly draw the teacher s interest regardless of teaching style The skills that students gain from working with primary sources prepare them for the many responsibilities and duties of being a citizen in a democracy Therefore the book closes with a chapter pointing to the relationship of primary sources to citizenship education This book will be useful as a resource for teachers and might serve as a text for in service college methods courses and school libraries All four authors have experience in the K 12 classroom as well as social studies teacher education

Best Practices in Social Studies Assessment

Mark Percy, 2017-03-01 The importance of social studies assessment is beyond question The National Council of the Social Studies C3 Framework recognizes the importance of high quality assessments its major objective a deep understanding of the sociocultural world has as its underpinning the idea that students must be able to investigate the world and that teachers much be able to assess their understanding of it However there is a comparative dearth of research that focuses on effective social studies assessment particularly with regard to the impact of teacher practice on the development of best practices Such research is vital to moving social studies away from an emphasis on testing and more towards using assessment as a means of educating our students In Best Practices of Social Studies Assessment we focus on an essential question what is an effective assessment Helping teachers develop practical creative curriculum appropriate strategies is essential especially in an era in which teachers are faced with the dilemma of creating inquiry based assessments in the midst of preexisting regimes of standardized summative assessments In this volume research conducted between university professors and working teachers is described focusing on innovative assessment practices These practices include role playing activities depicting historical events Socratic seminars revolving around public policy issues collaborative student projects on a wide range of social inquiries including the implementation of UN programs and the promotion of critical thinking and writing skills on subjects as diverse as school violence and the impact of imperialism These adaptive assessments highlight the essential role of the teacher in creating assessments that blend higher order critical thinking complex content knowledge and an understanding of their own students The strategies described in this volume focus on the ability of expert educators to

acknowledge the structures power and consequences of high stakes testing regimes while simultaneously designing and sustaining classroom assessment methods that embody the social participatory nature of learning and reflect research on effective practice p 289 The volume also describes the shared characteristics of the teachers who created these assessments especially their emphasis on self reflection and student autonomy as well as their professional willingness to take on challenges associated with performance based assessments even in the face of institutional pressures and external demands
