Hainsworth,2021-12-02 THE NOVEL THE SPIRIT OF TIME There is no one reason for having written this story In my lifetime I have collected within my memory many thoughts and facts of Australia With this in mind I have attempted to tell things as they are and not be politically correct in whom I might hurt or not To assume is to allow others to experience what indeed is in your intellect to do I have placed a heroine as the main character in the book to allow for the difference between the ugliness of man to fight against that of the female insight into love Blending the two I hope to have captured life in reality We have taken the time zone back to the forties at the start to enable us to have a greater understanding of the pioneers as they struggled under greater adversity than they do today Having said that it was of course the right of the Indigenous people to say they had those hardships before the white man It was because of them the people were able to expand this Island and in that had the right to be themselves then and also today Perhaps this is the reason I have placed a great emphasis on them and the customs To capture the dreamtime in one s mind is to know who you are Having achieved that I wished to give some insight so others may find peace in their life time Politically there remains an undercurrent of stupid acquiescence that threatens to demolish this once great country This is not directed towards any one group but more to the point ridiculing to the apathy of my fellow Australians Their being afraid of what they do not know creates this monster termed as racism The towns places plants along with the wild life are real and if this book can get one person to seek out what is out there then I have achieved the need that is yours The realness of the Indigenous people of the region along with their language are also real and as you find the beauty you would be one step towards thanking the pioneers for their strength and tenacity Regards

Environment, Food and Rural Affairs Committee,2012 The European Commission proposes that 30% of direct payments made to farmers under the Common Agricultural Policy CAP would be conditional on compliance with three new

greening measures While supporting the Commission s desire to improve the environment the EFRA Committee rejects the approach proposed Instead it calls for the EU to set high level objectives for the CAP that provide for flexibility to apply the right measures for local conditions through decentralising environmental protection under the CAP to Member States This report highlights the huge benefit that UK agri environment schemes have brought to biodiversity food production and the countryside The Committee also urged Defra to ensure that the UK s tenant farmers should not be excluded from these schemes The Committee concludes that Defra must ensure the balance of funding between mandatory and voluntary aspects of the CAP should not leave UK farmers at a competitive disadvantage relative to their counterparts in the rest of Europe MPs also warn that measures proposed by the Commission would be even more complex than the current system adding costly bureaucracy and generating more errors in the system Likewise the committee concludes that the Commission s crop diversification measure would in the UK have perverse consequences that are far less environmentally beneficial than crop rotation Of the three greening measures offered the Commission s proposal for Ecological Focus Areas EFA has the potential to deliver the greatest environmental benefit However the lack of definitions within the proposals make it difficult to assess what if any such benefits would actually be delivered **St. Nicholas** Mary Mapes Dodge,1918 St. Nicholas ,1907
