Weaknesses Of The Rme Syllabus:

The Bloomsbury Handbook of Religious Education in the Global South Yonah Hisbon Matemba, Bruce A. Collet, 2022-02-10 The Bloomsbury Handbook of Religious Education in the Global South presents new comparative perspectives on Religious Education RE across the Global South Including 23 chapters written by scholars from the Global North and South this is the first authoritative reference work on the subject The handbook is thematically organised into seven sections The first three sections deal with provision response to changes in contemporary society and decolonizing RE The next four sections explore young people and RE perspectives on teachers RE in higher education and finally challenges and opportunities for RE The term Global South is used here primarily to signify the deep economic divide with the Global North but the concept is also examined in historical geographical political social and cultural terms including the indelible influence of religion in all four broadly defined regions Exploring RE from local cross national as well as regional and sub regional perspectives the handbook examines RE from its diverse past present realities and envisioned future revealing not only tensions contestations injustices and inequalities of power but importantly how inclusive forms of RE can help solve these problems *Religious Education in Malawi and Ghana* Yonah Matemba, Richardson Addai-Mununkum, 2021-03-15 Religious Education in Malawi and Ghana contributes to the literature on opportunities and complexities of inclusive approaches to Religious Education RE It analyses how RE in Malawi and Ghana engages with religious pluralisation and provides a compelling case for the need to re evaluate current approaches in the conceptualisation curriculum design and delivery of RE in schools in Malawi and Ghana The book explains how a pervasive tradition of selection involving exclusion and inclusion of religion in RE leads to misrepresentation and in turn to misclusion of non normative religions where religion is included but marginalized and misrepresented The book contributes to wider discourse of RE on opportunities as well as complexities of post confessional approaches including the need for RE to avoid perpetuating the continued legitimisation of selected religions and in the process the delegitimization of the religious other as a consequence of misrepresentation and misclusion Inspired by Braten s methodology for comparative studies in RE the book draws on two qualitative studies from Malawi and Ghana to highlight the pervasive problems of religious misclusion in RE This book will be of great interest for academics scholars and post graduate students in the fields of RE African education educational policy international education and comparative education **West Africa ,1982** **An Assessment of the Curriculum and Implementation of the Subject Religious and Moral Education in Namibia** ,2014 This research study investigated the perceptions of Religious and Moral Education RME teachers in Namibia with regard to the implementation of the RME syllabus Grades 5 10 in actual teaching and learning situations It also examined to what extent pre service and in service training prepare these teachers to deal with the demands of the subject in their professional classroom situations The relevance of the study was that the continuing process of curriculum development would benefit from specific knowledge of the perceptions of teachers

and learners regarding their problems and problem solving shortcomings in the system pre service and in service training and support services The study took place amidst a global debate on paradigms in the teaching of religion and moral formation It could therefore also contribute to a growing canon of literature with specific contributions based on empirical research The study reviewed literature in the field of religious and moral education the official curricula and syllabi as well as all other policy and training documents relating to the subject A carefully sampled case study of teachers in public schools in the Ompundja circuit of the Oshana region was carried out
