Tigris and Euphrates Rivers: Their Environment from Headwaters to Mouth Laith A. Jawad,2021-09-12 The system of the Tigris Euphrates Rivers is one of the great river systems of southwestern Asia It comprises the Tigris and Euphrates Rivers which follow roughly parallel courses through the heart of the Middle East The lower portion of the region that they run through is known as Mesopotamia was one of the cradles of civilisation There are several environmental factors that govern the nature of the two rivers and shape the landscape the two rivers running through Geological events create rivers climate

monitor the water supply the surrounding land influences the vegetation and the physical and chemical features of water The Tigris Euphrates system runs through the territory of four countries Iraq Iran Turkey and Syria Therefore any scientific approach to the environment of these two rivers should include the natural history events in these countries The book Tigris and Euphrates Rivers Their Environment from Headwaters to Mouth will be divided into nine parts These parts deal with the issues of the environment the status of the flora and fauna the abiotic aspects ecology hydrological regime of the two rivers the biotic aspects Water resources stress of the environment conservation issues Since the book of Julian Rzoska Euphrates and Tigris Mesopotamian Ecology and Destiny in 1980 no book or major reference has been published that includes between its cover the facts and information that the present book will present Therefore the importance of the present book falls in stating the present status of the environment of the two rivers and the comparison of their environment between now and that of 37 years ago as given by J Rzoska 1980 The recent studies showed that there are a large number of natural and political events that happened within the last three decades in the area of the Tigris Euphrates river system that for sure have done a great change to the environment of the two rivers and consequently changing the biological and non biological resources of the two rivers This book will be a reference book to both Academic and students across the Middle East in different disciplines of knowledge to use in their researches on Tigris Euphrates river system The scholars interested in this area will use this book as a guide to compare this freshwater system with other areas in Asia and the world Journal of the House of Representatives of the United States United States. Congress. House, 2008 Some vols include supplemental journals of such proceedings of the sessions as during the time they were depending were ordered to be kept secret and respecting which the injunction of secrecy was afterwards taken off by the order of the House *State Magazine* ,2009 **Listening to War** J. Martin Daughtry, 2015-09-01 To witness war is in large part to hear it And to survive it is among other things to have listened to it and to have listened through it Listening to War Sound Music Trauma and Survival in Wartime Iraq is a groundbreaking study of the centrality of listening to the experience of modern warfare Based on years of ethnographic interviews with U S military service members and Iraqi civilians as well as on direct observations of wartime Iraq author J Martin Daughtry reveals how these populations learned to extract valuable information from the ambient soundscape while struggling with the deleterious effects that it produced in their ears throughout their bodies and in their psyches Daughtry examines the dual edged nature of sound its potency as a source of information and a source of trauma within a sophisticated conceptual frame that highlights the affective power of sound and the vulnerability and agency of individual auditors By theorizing violence through the prism of sound and sound through the prism of violence Daughtry provides a productive new vantage point for examining these strangely conjoined phenomena Two chapters dedicated to wartime music in Iraqi and U S military contexts show how music was both an important instrument of the military campaign and the victim of a multitude of violent acts throughout the war A landmark work within the study of conflict sound studies and ethnomusicology Listening to

War will expand your understanding of the experience of armed violence and the experience of sound more generally At the same time it provides a discrete window into the lives of individual Iraqis and Americans struggling to orient themselves within the fog of war **Iraq After the Surge** United States. State Fragility Around the World Laurie A. Gould, Matthew Pate, 2016-02-24 Failed and fragile states often govern through the criminalization of otherwise inconsequential or tolerated acts These weak states also frequently use kidnapping murder and other violent or oppressive tactics to maintain order and stay in power *State Fragility Around the World* Fractured Justice and Fierce Reprisal analyzes the path to state failure Reflections Mark Zeitoun, 2023 This book calls for us to develop an informed ethos of respect for water to save ourselves It counts on readers to reflect honestly on the intimate relationship we have developed with the substance because the stakes are high Water has qualities which make it nourishing cleansing and unifying But as the book shows we pump aquifers dry contaminate lakes fight over rivers generally using and abusing water at will Cases from all over the world and especially from the Middle East detail how the lure of profit defeats the counsel to use water sustainably how chauvinist ideologies lead to inequality with monotonous predictability and how the violent logic of war both weaponizes and victimizes water It argues that what we do with water whilst it is in our hands mirrors our behaviour to each other and that society needs to understand water in a new way to reverse the desecration
