This LNCS volume contains the proceedings of the 7th International Symposium on Software Composition which was held on March 29-30, 2008 as a satellite event of the European Joint Conferences on Theory and Practice of Software (ETAPS) in Budapest, Hungary. We received 90 initial submissions from all over the world, out of which 70 were considered for evaluation by a Program Committee consisting of 30 international experts. Among these submissions we selected 13 long papers and 6 short papers to be included in the proceedings and presented at the conference. Each paper went through a thorough revision process and was reviewed by three to five reviewers. This ensured the necessary quality for publishing these proceedings in time for the event, a first in the history of the symposium.
