We Re Moving Modern Family Children S Book Series 2:

France ,1920 Children in Moral Danger and the Problem of Government in Third Republic France Sylvia Schafer,2015-03-08 By exploring how children and their families became unprecedented objects of governmental policy in the early decades of France s Third Republic Sylvia Schafer offers a fresh perspective on the self fashioning of a new governmental order In the aftermath of the Franco Prussian War social reformers claimed that children were increasingly the victims of their parents immorality Schafer examines how government officials codified these claims in the period between 1871 and 1914 and made the moral status of the family the focus of new kinds of legislative juridical and administrative action Although the debate on moral danger in the family helped to articulate the young republic s claim to moral authority in the metaphors of parenthood the definition of moral endangerment remained ambiguous Schafer shows how public authorities reshaped their agenda and varied their remedies as their schemes for protecting morally endangered children broke down under the enduring weight of this ambiguity Drawing on insights from feminist theory literary studies and the work of Michel Foucault Schafer reveals the cultural complexity of civil justice and social administration in both their formal and everyday incarnations In demonstrating the centrality of ambivalence as a condition of liberal government and governmental representations she fundamentally recasts the history of the early Third Republic and more widely issues a powerful challenge to conventional views of the modern state and its history Originally published in 1997 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 Imperialism in the Modern World William Bowman, Frank Chiteji, J. Megan Greene, 2016-11-03 Imperialism in the Modern World combines narrative primary and secondary sources and visual documents to examine global relations in the nineteenth and twentieth centuries The three co editors Professors Bowman Chiteji and Greene have taught for many years global history classes in a variety of institutions They wrote Imperialism in the Modern World to solve the problem of allowing teachers to combine primary and secondary texts easily and systematically to follow major themes in global history some readers use primary materials exclusively Some focus on secondary arguments This book is more focused than other readers on the markets for those teachers who are offering more specialized world history courses one important trend in global history is away from simply trying to cover everything to teaching real connections in more chronologically and thematically focused courses The reader also provides a genuine diversity of global perspectives and invites students to study seriously world history from a critical framework Too many readers offer a smorgasbord approach to world history that leaves students dazed and confused This reader avoids that approach and will therefore solve many problems that teachers

have in constructing and teaching world history courses at the introductory or upper division levels The reader will allow show students how to read historical documents through a hands on demonstration in the introduction The book also incorporates images as visual documents Finally the book conceives of global history in the widest possible terms it contains pieces on political diplomatic economic and military history to be sure but it also has selections on technology medicine women the environment social changes and cultural patterns Other readers can not match this text s breadth because they are chronologically and thematically so extended **Dramatic Mirror of the Stage and Motion Pictures** ,1917
