World and Radio Review ,1923 The Belgrade Five Vladimir Radovic,2017-06-23 What makes this book engaging is its setting a country that the author describes in a preface as a place that no longer exists and belonged more to the East than to the West but mostly to itself The author captures beautifully what it meant to be a teenager in 1960s Belgrade including minute details of daily life in the kafana a type of bistro Kirkus Review Based on a diary this collection of anecdotes and vignettes focuses on five high school friends and covers the two years they spent together It brings to life their passion for football and girls academic failures and triumphs pranks and escapades letdowns and amends And their watershed period cemented a lifelong friendship As it reveals the tone and spirit of the times music and fashion books and movies food and politics the memoir weaves in the countrys complex history natural beauty and cultural diversity And it gives tribute to the First Belgrade Gymnasium one of the oldest high schools in the Balkans which played a pivotal role in the boys coming of age

Realm of Ice and Sky Buddy Levy,2025-01-28 Two time National Outdoor Book Award winning author Buddy Levy s thrilling narrative of polar exploration via airship and the men who sacrificed everything to make history Arctic explorer and American visionary Walter Wellman pioneered both polar and trans Atlantic airship aviation making history s first attempts at each Wellman has been cast as a self promoting egomaniac known mostly for his catastrophic failures Instead he was a

courageous innovator who pushed the boundaries of polar exploration and paved the way for the ultimate conquest of the North Pole which would be achieved not by dogsled or airplane but by airship American explorer Dr Frederick Cook was the first to claim he made it to the North Pole in 1908 A year later so did American Robert Peary but both Cook's and Peary's claims had been seriously questioned There was enough doubt that Norwegian explorer extraordinaire Roald Amundsen who did make history and a name for himself by being first to sail through the Northwest Passage and first man to the South Pole picked up where Walter Wellman left off attempting to fly to the North Pole by airship He would go in the Norge designed by Italian aeronautical engineer Umberto Nobile The 350 foot Norge flew over the North Pole on May 12 1926 and Amundsen was able to accurately record and verify their exact location However the engineer Nobile felt slighted by Amundsen Two years later Nobile returned this time in the Italia backed by Prime Minister Benito Mussolini This was an Italian enterprise and Nobile intended to win back the global accolades and reputation he believed Amundsen had stripped from him The journey ended in disaster death and accusations of cannibalism launching one of the great rescue operations the world had ever seen Realm of Ice and Sky is the riveting tale of the men who first flew the most advanced technological airships of their time to the top of the world risking and even giving their lives for science country and polar immortality *Popular Radio* ,1923 Restitution Kathy Kacer,2010-04-01 Based on the true story of a Jewish family's fight to regain a symbol of their lost life Restitution begins in Prague on the eve of the Nazi invasion The Reesers know that they must flee Czechoslovakia but first they deliver their valuable oil paintings into the hands of a Christian colleague for safekeeping Led by their intrepid matriarch Mari Reeser the family make their escape under the nose of the Nazis arriving in Canada just days before WWII begins Despite a successful new life in Toronto the Reesers never forgot what was left behind When peace returned to Europe Mari fought for the return of the paintings only to be thwarted by the Communist regime Hope sparked again in 1989 when Mari's son Karl Reeser received a letter saying the paintings were his if he could retrieve them Finding all legal means closed to him he traveled to Prague to make one last try Here fate intervened with an unlikely savior named Richard VandenBosch an official at the Canadian Embassy Together he and Karl manage to retrieve the paintings and secrete them in the embassy The final hurdle how to get the paintings to Canada is solved by a resourceful art dealer and smuggler named Theofil Kral whose honest desire to help the Reeser family restore a symbol of their vanished life sees the four paintings returned to them at last *Wireless World and Radio Review* ,1929 AKASHVANI All India Radio (AIR), New Delhi ,1966-12-25 Akashvani English is a programme journal of ALL INDIA RADIO it was formerly known as The Indian Listener It used to serve the listener as a Bradshaw of broadcasting and give listener the useful information in an interesting manner about programmes who writes them take part in them and produce them along with photographs of performing artists It also contains the information of major changes in the policy and service of the organisation The Indian Listener fortnightly programme journal of AIR in English published by The Indian State Broadcasting Service Bombay started on 22 December

Central Intelligence Agency,1968 **Commerce Today** ,1970-10 *Report of the International Meteorological Committee* International Meteorological Committee,1904 *Upwave* John Montgomery,2016-02-17 Countering the many claims that the best days of capitalism are over following the economic meltdown of 2008 onwards this book provocatively argues that a new golden age of capitalism or upwave began around 2002 and despite the unstable markets in the western world of the past few years this upwave will produce previously unseen levels of wealth creation during the next twenty years Basing this theory on the commercialisation of new technologies and the growth of new markets the author claims that these positive trends are key to economic recovery in the US UK and Europe It argues that the most serious problem facing some countries in the west is government debt and that macroeconomic policy is of limited use in flexible and adaptive economies where innovation entrepreneurship and private investment should be encouraged in a range of cities and city regions This highly original book will interest those concerned with national economies nation states and urban policy Birnbaum's Eastern Europe 1993 Alexandra Mayes Birnbaum,1992-12-17 **The Year-book of Wireless Telegraphy & Telephony** ,1914
