The Wednesday Wars Novel Units Student Packet Novel Units, 2019-07-15 **Exploring Teachers in Fiction and Film** Melanie Shoffner, 2016-03-31 This book about teachers as characters in popular media examines what can be learned from fictional teachers for the purposes of educating real teachers. Its aim is twofold: to examine the constructed figure of the teacher in film, television, and text and to apply that examination in the context of teacher education. By exploring the teacher construct, readers are able to consider how popular fiction and film have influenced society's understandings and views of classroom teachers. Organized around four main themes: Identifying with the Teacher Image, Constructing the Teacher with Content, Imaging the Teacher as Savior, The Teacher Construct as Commentary, the chapters examine the complicated mixture of fact, stereotype, and misrepresentation that create the image of the teacher in the public eye today. This examination in turn allows teacher educators to use popular culture as curriculum. Using the fictional teacher as a text, preservice and practicing teachers can examine positive and negative and often misleading representations of teachers in order to develop as teachers themselves.

Literature for Young Adults Joan L. Knickerbocker, 2017-03-15 Young adults are actively looking for anything that connects them with the changes happening in their lives, and the books discussed throughout *Literature for Young Adults* have the potential to make that connection and motivate them to read. It explores a great variety of works, genres, and formats, but it places special emphasis on contemporary works whose nontraditional themes, protagonists, and literary conventions make them well suited to young adult readers. It also looks at the ways in which contemporary readers access and share the works they're reading and it shows teachers ways to incorporate nontraditional ways of accessing and sharing books throughout their literature programs. In addition to traditional genre chapters, *Literature for Young Adults* includes chapters on literary nonfiction, poetry, short stories, and drama, cover art, picture books, illustrated literature, and graphic novels and film. It recognizes that while films can be used to complement print literature, they are also a literacy format in their own right and one that young adults are particularly familiar and comfortable with. The book's discussion of literary language, including traditional elements as well as metafictional terms, enables readers to share in a literary conversation with their students and others when communicating about books. It will help readers teach young adults the language they need to articulate their responses to the books they are reading.

Cracking the Praxis Fritz Stewart, Rick Sliter, Princeton Review (Firm), 2005 The Praxis is a series of tests that prospective teachers must take to receive certification in most states. It includes two full-length practice exams for each of the Pre-Professional Skills Tests (PPST) in Reading, Writing, and Math; 24 practice PPST drill questions; three full-length exams for the Principles of Learning and Teaching (PLT) Grades K-6, Grades 5-9, and Grades 7-12; 20 PLT drill questions for each of the three levels tested; eight drill questions for each of the five most frequently required subject tests; three complete practice case studies.

Learning styles: a narrative approach Armando Lozano Rodríguez,2015-02-25 There are some theories in the field of learning styles that have appeared in specialized literature in the last fifty years Through a refreshing narrative exploration Armando Lozano goes beyond the limits of the theory to express practical applications which many educators and parents would like to know about the different ways in which people learn Peppered with anecdotic capsules the content takes the reader to a real and feasible universe of the daily life From the points of view of a principal a professor a professional a researcher and others the book presents the practical application of the different theories of learning styles **Dynamics of Effective Secondary Teaching** ,2004 Dynamics of Effective Secondary Teaching integrates theory and research with current classroom practice to help future and in service secondary teachers make instructional and management decisions for the purpose of improving instruction Realistic scenarios numerous examples and illustrations from all subject areas classroom observation forms and valuable websites are what makes this text so practical providing preservice teachers a direct link to classroom practice As with previous editions the major feature of this book is the authors emphasis on decision making as the thread that links all the topics together Decision making is introduced in Chapter 1 as a process fundamental to educators and is revisited to enforce the application in each chapter The authors view of decision making considers it from a constructivist view of teaching and learning based on reflection and meaning making Unique to this book is the inclusion in each chapter of a scenario in which a middle or secondary school teacher representing a wide range of subject areas and grade levels applies key ideas to the classroom These scenarios which appear near the beginning of each chapter are referred to and analyzed throughout the chapter to provide a running commentary on the theoretical content being presented **The Independent** William Livingston,1918 **American Book Publishing Record** ,2007 **The Living Church** ,1919 **The Church of England Magazine** ,1860 Report and speeches at the third annual meeting of the Church Pastoral aid Society May 8 1838 **Luther League Review** ,1916 **Iraq and the Lessons of Vietnam** Lloyd C.
