

WATER CASE STUDY

Water is a vital resource for all life on Earth. It is essential for drinking, agriculture, and industry. However, water is not infinite, and its distribution is uneven across the globe. This case study explores the challenges of water scarcity and the solutions being implemented to ensure a sustainable future.

Water scarcity is a global issue that affects billions of people. It is caused by a combination of factors, including population growth, climate change, and overuse of water resources. The consequences of water scarcity are severe, including drought, famine, and conflict.
