Putin Confronts the West René De La Pedraja, 2021-03-22 Russia's surprising return to the world stage since 2000 has aroused the curiosity if not the fear of the West Gradually the Kremlin went from a policy of deference to foreign powers to acting with independence The driver of this transformation was President Vladimir Putin who with skillful caution navigated Russia back into the ranks of global powers In theaters of conflict such as Georgia Syria and Ukraine the Kremlin won significant victories at little cost to consolidate its decisive position Following a chronological approach from the fall of the Soviet Union to the present this book draws on new documents to describe how Russia regained its former global prominence Clear accounts of key decisions and foreign policy events many presented for the first time provide important insights into the major confrontations with the West

Inside the Situation Room Hillary Rodham Clinton, Keren Yarhi-Milo, 2025-08-15 Combining decades of diplomacy and world renowned scholarship *Inside the Situation Room* bridges the gap between politics and academia to illuminate how world leaders make decisions in times of crisis For decades people have sought to understand how and why decisions are made in times of crisis but very few get the opportunity to witness leaders decision making process The result has been a persistent disconnect between the theory and the practice of decision making Now a former US Secretary of State has joined forces with a world renowned scholar to bridge that gap first in their ground breaking class at Columbia University's School of International and Public Affairs and now in the pages of this book In *Inside the Situation Room* Secretary Hillary Rodham Clinton and Dr Keren Yarhi Milo bring together insights from more than a dozen leading policymakers and scholars so readers can experience a masterclass in global policy and crisis decision making The book includes everything from the psychology and mechanics of threat assessment the role of advisors the effects of group think and trust real life stories of

diplomatic efforts and covert operations how women have shaped decisions over peace and security and the impact of public opinion Inside the Situation Room offers an insider look at how decisions are actually made what theoretical insights might be useful to current and future generations of leaders and where research still needs to be done This book will serve as the first step toward a new standard engagement more active iterative collaboration among two communities scholars and practitioners who have a great deal to contribute and learn from one another *Russia Against the Rest* Richard

Sakwa,2017-10-12 In this book Richard Sakwa provides a new analysis of the end of the Cold War and the subsequent failure to create a comprehensive and inclusive peace order in Europe The end of the Cold War did not create a sustainable peace system Instead for a quarter of a century a cold peace reflected the tension between cooperative and competitive behaviour None of the fundamental problems of European security were resolved and tensions accumulated In 2014 the crisis exploded in the form of conflict in Ukraine provoking what some call a new Cold War Russia against the Rest challenges the view that this is a replay of the old conflict explaining how the tensions between Russia and the Atlantic community reflect a global realignment of the international system Sakwa provides a balanced and carefully researched analysis of the trajectory of European and global politics since the late 1980s *Europe* Brendan Simms,2013-04-30 With verve and panache this

magisterial history of Europe since 1453 shows how struggles over the heart of the continent have shaped the world we live in today The Economist Whoever controls the core of Europe controls the entire continent and whoever controls Europe can dominate the world Over the past five centuries a rotating cast of kings conquerors presidents and dictators have set their sights on the European heartland desperate to seize this pivotal area or at least prevent it from falling into the wrong hands From Charles V and Napoleon to Bismarck and Cromwell from Hitler and Stalin to Roosevelt and Gorbachev nearly all the key power players of modern history have staked their titanic visions on this vital swath of land In Europe prizewinning historian Brendan Simms presents an authoritative account of the past half millennium of European history demonstrating how the battle for mastery of the continent s center has shaped the modern world A bold and compelling work by a renowned scholar Europe integrates religion politics military strategy and international relations to show how history and Western civilization itself was forged in the crucible of Europe *The Lifeboat* Baronet Janet Gleeson,2024-08-20 In this historical

biography the life story of the founder of the United Kingdom s royal charitable lifeboat service is revealed for the first time Established in the nineteenth century when death from shipwreck was a tragic reality the Royal National Lifeboat Institution RNLI was created with the sole mission of saving lives But little is known about the RNLI s founder Sir William Hillary A handsome charismatic figure known to be something of a philanderer Hillary was a social climber born to a slave holder s family in Liverpool who mingled with royalty and married an heiress So how did Hillary become one of England s national heroes Historian and bestselling author of *The Arcanum* Janet Gleeson reveals for the first time how a charming adventurer was inspired to lead the historic campaign for the creation of the National Institute for the Preservation of Life today s RNLI

Despite having never learned to swim himself Hillary braved terrifying storms to save hundreds of lives during his quest. Drawing on previously unpublished letters many of them written by Hillary himself Gleeson narrates the fascinating story of the RNLI's development along with the Hillary's political ties and private tribulations. For history lovers and fans of maritime adventure stories *Lifeboat Baronet* is an absorbing account of how a Regency rake improbably became an important Victorian philanthropist and reformer. *Cyprus Embassy Newsletter*, 1997

The Palgrave Handbook of Contemporary Geopolitics Zak Cope, 2024-11-01 The Palgrave Handbook of Contemporary Geopolitics features expert geopolitical analysis from internationally renowned experts in the field. Reflecting the need for global analysis of national and regional politics The Handbook highlights the wider strategic economic cultural and security geography of contemporary international relations. The contributions underscore the complex interplay between sociopolitical processes at the national level and their articulation at the regional and global levels. *National Geographic Concise History of the World* Neil Kagan, 2006 A chronology of world history ranges from the dawn of humankind to the present day examining important events milestones ideas and personalities that occurred simultaneously in different regions of the world

The Semantic Web Eva Blomqvist, Diana Maynard, Aldo Gangemi, Rinke Hoekstra, Pascal Hitzler, Olaf Hartig, 2017-05-15 The two volumes LNCS 10249 and 10250 constitute the refereed proceedings of the 14th International Semantic Web Conference ESWC 2017 held in Portoro Slovenia. The Post Cold War World Michael Cox, 2018-12-14 This book by a leading scholar of international relations examines the origins of the new world disorder the resurgence of Russia the rise of populism in the West deep tensions in the Atlantic alliance and the new strategic partnership between China and Russia and asks why so many assumptions about how the world might look after the Cold War liberal democratic and increasingly global have proven to be so wrong. To explain this Michael Cox goes back to the moment of disintegration and examines what the Cold War was about why the Cold War ended why the experts failed to predict it and how different writers and policy makers and not just western ones have viewed the tumultuous period between 1989 when the liberal order seemed on top of the world through to the current period when confidence in the western project seems to have disappeared almost completely. *First Among Equals* Emma Ashford, 2025-08-26 A fresh concise roadmap for U.S. grand strategy in a multipolar world. For the past thirty years post Cold War triumphalism and a desire to reshape the world have defined U.S. foreign policy. But the failures of the global war on terror the return of conflict

to Europe and growing tensions with China all suggest that this approach to the world is flawed For the United States the country that has ruled the international system largely alone since 1991 this moment is particularly perilous Can policymakers adapt American foreign policy to better fit the twenty first century and in doing so avoid the pitfalls and excesses of the past three decades In this book Emma Ashford proposes a return to a more pragmatic realist set of strategic principles ones better suited for the emerging multipolar world that would pursue narrower U S interests cultivate the capabilities of friendly states and emphasize room for maneuver over rigid alliances In this she provides a valuable counterpoint to today s liberal internationalist consensus as well as a road map for policymakers who seek to change the course of U S foreign policy

Normandy William M. Hammond,1994 Provides one in a series of 40 illustrated brochures that describe the campaigns in which U S Army troops participated during the war Each brochure describes the strategic setting traces the operations of the major American units involved and analyzes the impact of the campaign on future operations

Normandy: The U.S. Army Campaigns of World War II (Pamphlet) (Paperback format only) ,1994 Provides one in a series of 40 illustrated brochures that describe the campaigns in which U S Army troops participated during the war Each brochure describes the strategic setting traces the operations of the major American units involved and analyzes the impact of the campaign on future operations

Restraining Great Powers T. V. Paul,2018-09-18 How subtler forms of balance of power politics can help states achieve their goals against aggressive powers without wars or arms races At the end of the Cold War the United States emerged as the world s most powerful state and then used that power to initiate wars against smaller countries in the Middle East and South Asia According to balance of power theory the bedrock of realism in international relations other states should have joined together militarily to counterbalance the United States rising power Yet they did not Nor have they united to oppose Chinese aggression in the South China Sea or Russian offensives along its western border This does not mean balance of power politics is dead argues renowned international relations scholar T V Paul instead it has taken a different form Rather than employ familiar strategies such as active military alliances and arms buildups leading powers have engaged in soft balancing which seeks to restrain threatening powers through the use of international institutions informal alignments and economic sanctions Paul places the evolution of balancing behavior in historical perspective from the post Napoleonic era to today s globalized world This book offers an illuminating examination of how subtler forms of balance of power politics can help states achieve their goals against aggressive powers without wars or arms races

Sino-Russian Relations in the 21st Century Jo Inge Bekkevold,Bobo Lo,2018-07-24 This book examines how recent fundamental changes influence Sino Russian relations and the wider long term implications of the revolving Sino Russian dynamic on international affairs It brings together leading scholars to examine recent developments across the whole relationship from grand strategy and global governance to bilateral energy and military ties and regional interaction in Central Asia Northeast Asia and the Middle East The Sino Russian relationship boasts major achievements but also reveals

important differences and latent tensions The project is intended for policy makers academics and students of strategic studies diplomacy studies Chinese politics Russian politics and foreign policy

The Spectator, 2006 **A Disaster of Our Own Making** Brandon J. Weichert, 2024-10-22 This searing account of the conflict between Russia and Ukraine reveals that contrary to popular media narratives Western hawks are culpable in triggering a war that has cost many thousands of innocent Ukrainian lives In 1991 the Cold War ended in a bloodless victory for NATO After 45 years of a grueling nuclear tinged Cold War communism was dead Eastern Europe was free Russia looked to the West for how to build a better freer future for itself and liberal democracy and capitalism reigned supreme But in the ruins of the last war lie the seeds for the next great conflict Floating just beneath the surface of post Cold War international relations was the question of what was to become of NATO with the loss of the Soviet Union as a threat Western leaders believed expansion into the former Soviet states of Eastern Europe was the natural next step But the Russians opposed this For 30 years a succession of Russian leaders from Mikhail Gorbachev to Boris Yeltsin to Vladimir Putin warned the West that NATO's expansion into territories bordering Russia notably into Ukraine would trigger a violent response from Moscow Yet the West did not listen Contrary to the popular narrative in the West A Disaster of Our Own Making How the West Lost Ukraine will show readers how Westerners created our current crisis with Russia and why innocent Ukrainians are being made to pay with their lives for the arrogance and ignorance of Western leaders in the post Cold War era Thanks to their hubris the world now teeters on the brink of a potential nuclear world war over the status of Ukraine *101 Sermons on God and Government, Form #17.062* Brook Stockton, 2023-07-26 Sermons on government from a reformed theology perspective

The Use of Force in International Law Tom Ruys, Olivier Corten, Alexandra Hofer, 2018-04-26 The international law on the use of force is one of the oldest branches of international law It is an area twinned with the emergence of international law as a concept in itself and which sees law and politics collide The number of armed conflicts is equal only to the number of methodological approaches used to describe them Many violent encounters are well known The Kosovo Crisis in 1999 and the US led invasion of Iraq in 2003 spring easily to the minds of most scholars and academics and gain extensive coverage in this text Other conflicts including the Belgian operation in Stanleyville and the Ethiopian Intervention in Somalia are often overlooked to our peril Ruys and Corten's expert written text compares over sixty different instances of the use of cross border force since the adoption of the UN Charter in 1945 from all out warfare to hostile encounters between individual units targeted killings and hostage rescue operations to ask a complex question How much authority does the power of precedent really have in the law of the use of force
