**The St Martin-In-the-Fields Seminar on the Rio+20 Agenda** Great Britain. Parliament. House of Commons. Environmental Audit Committee,2012 This report is on the recent public debate on the Rio Earth Summit agenda which took place at St Martin in the Fields London The Secretary General of the UN has labelled the Rio 20 Conference as one of the most important conferences in the history of the United Nations In not attending the Rio Earth Summit the Prime Minister is sending out a powerful signal that the UK Government does not see sustainability as a priority Public attention is understandably focused on the financial crisis but we risk sleep walking into an even worse environmental crisis if world leaders cannot find a greener and cleaner way of developing our economies in future It is down to us to find these solutions and to insist that our governments do so too The Committee have produced a previous report on the Rio 20 agenda HC 1026 session 2010 12 ISBN 9780215561954 and since then there has been a debate in the House of Commons on that report and the Government s response to it The Committee intends to examine the outcomes of the Rio 20 Summit and the action the UK will need to take later in the year That will provide an opportunity to review the way the Government approached the Summit

and its role there Key issues to be examined will be the extent to which the Government shows leadership at the Summit on the green economy agenda and subsequently whether the Government revisits its Enabling the Transition strategy to reflect the outcomes of the Summit

Sustainable development in the Localism Bill Great Britain: Parliament: House of Commons: Environmental Audit Committee,2011-03-22 The Localism Bill will devolve powers to councils and neighbourhoods and aims to give local communities more control over housing and planning decisions It includes measures to reform the planning system the provision of housing and a range of local authority governance issues The Bill will abolish Regional Spatial Strategies which set a regional level planning framework for England and will establish neighbourhood plans and neighbourhood development orders by which it is intended that communities will be able to influence council policies and development in their neighbourhoods The Government intends to introduce a presumption in favour of sustainable development as set out in the Conservative Party s 2010 Green Paper Open Source Planning and then in the Coalition Agreement The presumption does not feature in the Localism Bill although it will be included in a new National Planning Policy Framework Evidence taken by the Committee highlighted a number of potential risks with the proposed reforms These included fairness in influencing neighbourhood development monitoring the cumulative impacts of locally determined planning decisions and the application of sustainability and climate change duties to neighbourhood planning The Committee feels that the Localism Bill must provide a statutory duty to apply the principles of sustainability in the planning system and other functions of local government and provide a commitment to define the term sustainable development in the planning context This would include in the Bill the five internationally recognised principles of sustainable development as set out in the 2005 Sustainable Development Strategy This should then be developed for the National Planning Policy Framework
