Visual Culture In Contemporary China Paradigms And Shifts:

Visual Culture in Contemporary China Xiaobing Tang, 2015-01-08 Exploring a wealth of images ranging from woodblock prints to oil paintings this beautifully illustrated full color study takes up key elements of the visual culture produced in the People's Republic of China from its founding in 1949 to the present day In a challenge to prevailing perceptions Xiaobing Tang argues that contemporary Chinese visual culture is too complex to be understood in terms of a simple binary of government propaganda and dissident art and that new ways must be sought to explain as well as appreciate its multiple sources and enduring visions Drawing on rich artistic literary and sociopolitical backgrounds Tang presents a series of insightful readings of paradigmatic works in contemporary Chinese visual arts and cinema Lucidly written and organized to address provocative questions this compelling study underscores the global and historical context of Chinese visual culture and offers a timely new perspective on our understanding of China today

Visual Culture Wars at the Borders of Contemporary China Paul Gladston, Beccy Kennedy-Schtyk, Ming Turner, 2022-01-01 This edited collection brings together essays that share in a critical attention to visual culture as a means of representing contributing to and or intervening with discursive struggles and territorial conflicts currently taking place at and across the outward facing and internal borders of the People's Republic of China Elucidated by the essays collected here for the first time is a constellation of what might be described as visual culture wars comprising resistances on numerous fronts not only to the growing power and expansiveness of the Chinese state but also the residues of a once pervasively suppressive Western colonialism imperialism The present volume addresses visual culture related to struggles and conflicts at the borders of Hong Kong the South China Sea and Taiwan as well within the PRC with regard the so called Great Firewall of China and differences in discursive outlook between China and the West on the significances of art technology gender and sexuality In doing so it provides a vital index of twenty first century China's diversely conflicted status as a contemporary nation state and arguably nascent empire

Contemporary Chinese Cinema and Visual Culture Sheldon Lu, 2021-07-15 Honourable Mention Best Monograph Award BAFTSS Publication Awards 2022 Sheldon Lu's wide ranging new book investigates how filmmakers and visual artists from mainland China Hong Kong and Taiwan have envisioned China as it transitions from a socialist to a globalized capitalist state It examines how the modern nation has been refashioned and re imagined in order to keep pace with globalization and transnationalism At the heart of Lu's analysis is a double movement in the relationship between nation and transnationalism in the Chinese post socialist state He considers the complexity of how the Chinese economy is integrated in the global capitalist system while also remaining a repressive body politic with mechanisms of control and surveillance He explores the interrelations of the local the national the subnational and the global as China repositions itself in the world Lu considers examples from feature and documentary film mainstream and marginal cinema and a variety of visual arts photography painting digital video architecture and installation His close case studies include representations of class masculinity and

sexuality in contemporary Taiwanese and Chinese cinema the figure of the sex worker as a symbol of modernity and mobility and artists representations of Beijing at the time of the 2008 Olympics **Red Legacies in China** Jie Li,Enhua Zhang,2020-10-26 What has contemporary China inherited from its revolutionary past How do the realities and memories aesthetics and practices of the Mao era still reverberate in the post Mao cultural landscape The essays in this volume propose red legacies as a new critical framework from which to examine the profusion of cultural productions and afterlives of the communist revolution in order to understand China s continuities and transformations from socialism to postsocialism Organized into five parts red foundations red icons red classics red bodies and red shadows the book s interdisciplinary contributions focus on visual and performing arts literature and film language and thought architecture museums and memorials Mediating at once unfulfilled ideals and unmourned ghosts across generations red cultural legacies suggest both inheritance and debt and can be mobilized to support as well as to critique the status quo **Writing Visual Histories** Florence Grant,Ludmilla Jordanova,2020-11-12 What can visual artifacts tell us about the past How can we interpret them rigorously weaving their formal and material qualities into rich social contexts to reach wider historical conclusions Unfolding key historiographical and methodological issues Writing Visual Histories equips students to answer these questions showing visual analysis to be a key skill in historical research A multifaceted structure makes this a practical guide for writing and reflecting on visual histories A first section includes six case studies on topics ranging from medieval heraldry to Life magazine These examples are followed by an exploration of essential concepts that inform historical thinking about visual matters a treatment of disciplinary practices and discussion of the practicalities such as accessing museum collections and organising permissions that scholars working with visual sources have to navigate This book is an invaluable tool kit for opening up a historical understanding of visual phenomena and practices of looking and for writing that takes an integrated approach to studies of the past **The Future History of Contemporary Chinese Art** Peggy Wang,2021-01-26 A revelatory reclaiming of five iconic Chinese artists and their place in art history During the 1980s and 1990s a group of Chinese artists Zhang Xiaogang Wang Guangyi Sui Jianguo Zhang Peili and Lin Tianmiao ascended to new heights of international renown Even as their fame increased they came to be circumscribed by simplistic Western interpretations of their artworks as social and political critiques a perspective that privileged stories of dissidence over deep engagement with the art itself Through in depth case studies of these five artists Peggy Wang offers a corrective to previous appraisals demonstrating how their works address fundamental questions about the forms meanings and possibilities of art By the end of the 1980s Chinese artists were scrutinizing earlier waves of Western influence and turning instead to their own heritage and culture to forge their own future histories As the national trauma of the 1989 Tiananmen Square massacre converged with the mounting expansion of the global art world these artists turned to art as a profoundly generative site for grappling with their place in the world Wang demonstrates how they consciously and energetically sought to make their own ideas

about art and art history visible in contemporary art Wang's argument is informed by extensive primary research including close examination of the artworks analysis of Chinese language documents and archives and deeply personal interviews with the artists Their words uncover layers of meaning previously obscured by the popular and often recycled assessments that many of these works have received until now Beyond Wang's reinterpretation of these individual artists she contributes to an urgent conversation on the future direction of art history how do we map engagements between art from different parts of the world that are embedded within different art histories What does it mean for histories of contemporary art and art history more generally to be inclusive The new understandings offered in this book can and should be engaged when considering current hierarchies in histories of Chinese art the global art world and the intersections between them

Lex Lu argues that crafting an appealing and powerful outward image has long been a critical political tool in China. This strategy is evident in historical records, imperial portraits, physiognomic assessments, photographs, posters, statues, and digital images. Using rare archival materials from Beijing, Shanghai, and Nanjing, Lu explores how political figures designed their images and examines the shifting standards of male beauty that shaped their choices. The book analyzes five case studies: Ming Prince Zhu Di's usurpation, the rise of Manchu masculinity and blended Han-Manchu beauty standards under Emperor Yongzheng, modern photography and Western beauty ideals in the early 20th century, Sun Yat-sen's crafted image as the Republican founding father, and Mao Zedong's iconic visual legacy. Through this empirical, nuanced study, *Appearance Politics* challenges stereotypical portrayals of Chinese male leadership in Western media and scholarship, offering a richer understanding of appearance as a deliberate political strategy. — *Politics of Control*, Chang-tai Hung, 2021-01-31

Using a unique interdisciplinary cultural institutional analysis, *Politics of Control* is the first comprehensive study of how in the early decades of the People's Republic of China, the Chinese Communist Party reshaped people's minds using multiple methods of control. With newly available archival material, internal circulars, memoirs, interviews, and site visits, the book explores the fascinating world of mass media, book publishing, education, religion, parks, museums, and architecture during the formative years of the republic. When the Communists assumed power in 1949, they projected themselves as not only military victors but also as peace restorers and cultural protectors. Believing that they needed to manage culture in every arena, they created an interlocking system of agencies and regulations that was supervised at the center. Documents show, however, that there was internal conflict. Censors introduced early at the Beijing Daily operated under the twofold leadership of municipal level editors but with final authorization from the Communist Party Propaganda Department. *Politics of Control* looks behind the office doors where the ideological split between Party chairman Mao Zedong and head of state Liu Shaoqi made pragmatic editors bite their pencil erasers and hope for the best. Book publishing followed a similar multi-tier system, preventing undesirable texts from getting into the hands of the public. In addition to designing a plan to nurture a new generation of Chinese revolutionaries, the party state developed community centers that served as cultural propaganda stations. New urban parks were used to stage political rallies for major campaigns and public trials where threatening sects could be attacked. A fascinating part of the story is the way in which architecture and museums were used to promote ethnic unity under the Chinese party state umbrella. Besides revealing how interlocking systems resulted in a pervasive method of control, *Politics of Control* also examines how this system was influenced by the Soviet Union and how nevertheless Chinese nationalism always took precedence. Chang-tai Hung convincingly argues that the PRC's formative period defined the nature of the Communist regime and its future development. The methods of cultural control have changed over time, but many continue to have relevance today. — *Socially Engaged Public Art in East Asia*, Meiqin Wang, 2022-04-12
