Visual Display Scoring Guide

Hedley G. Dimock

Visual Display Scoring Guide:

A Simplified Guide to Program Evaluation Hedley G. Dimock, 1997 **Guide for Teacher Preparation in Driver Education** Human Resources Research Organization, 1975 *Great Performances* Larry Lewin, Betty Jean Shoemaker, 1998

This book presents an approach to developing performance assessments. It begins with four steps for Info In and moves to four Info Out modes through which students can make their content understanding explicit for evaluation purposes. The first chapter is an overview of performance assessment in the classroom. Chapter 2 discusses the Info In model and the key processes of reading, listening, manipulating, and viewing. Chapter 3 explores the first Info Out mode: visual representations. Chapters 4, 5, and 6 examine the three additional Info Out modes: writing, oral presentations, and large scale substantive projects and performances. The final chapter summarizes strengths and weaknesses of classroom based performance assessments. An appendix contains the Oregon Writing Scoring Guide for middle school. Contains 64 figures and 23 references. SLD

Fairness, Justice and Language Assessment Tim McNamara, Ute Knoch, 2019-02-21. This book has two goals each related to the validity of language assessment. The first goal is to explore the difference between fairness and justice in language assessment. The authors distinguish internal and external dimensions of the equitable and just treatment of individuals taking language tests which are used as gatekeeping devices to determine access to education and employment, immigrant status, citizenship, and other rights. The second goal is to show how the extent of test fairness can be demonstrated and improved using the tools of psychometrics, in particular the models collectively known as Rasch measurement. This book will have an enormous impact on the field of language assessment. Using Rasch analysis models to explore and identify sources of unfairness, the authors make a compelling case for fairness in the design and implementation of language assessment instruments and for justice in the interpretation and use of test results. A real strength of the book is that it guides readers through analytical techniques in an accessible way. Dan Douglas, Professor Emeritus, Applied Linguistics Program, Iowa State University.
