Choosing Excellence in Public Schools

David W. Hornbeck, Katherine Conner, 2009-06-15

Choosing Excellence in Public Schools explains the origins of the low expectations we have of children including notably children of color those for whom English is a second language poor children and children with disabilities The book dispels the basis for low expectations It makes clear the economic demographic civic personal and moral imperative to educate all children to high standards and the consequences of not doing so Hornbeck and Conner set forth a comprehensive radical agenda based on proven practices and practical experience that will result in education success for virtually all children where faithfully implemented This book breaks new ground It establishes that the missing ingredient in school reform is the absence of values driven focused well financed professionally staffed technologically sophisticated grassroots expression of the public will insisting that the political media business judicial and organized labor institutions that make the choices that result in our children s learning conditions make different and effective choices We get the education for our own children and grandchildren and those of others that we tolerate or demand
