Thuselt,2021-05-19 This book examines Lebanese political parties and their encounters with modernity Taking three mainly Christian parties as an example the book refutes the idea of Middle Eastern parties being backwards or antiquated By combining historical and anthropological perspectives it is shown that these parties stand for normativities of modernity Lebanese as well as Middle Eastern parties in general have a rather poor reputation they are considered family based ideologically meaningless tailored solely to their leadership and non modern Contrastingly this book claims that the concept of the real party corresponds to an encounter with modernity and that these parties although dysfunctional in parts are better than their reputation Most importantly Lebanese parties are taking the nation state as their central reference point as they recognise it as the legitimate form of societal organization The volume claims that important constituents of modernity such as the individual the nation secularity progress and representing the people demos serve for the parties in question as resources of utopian elements informing much of these parties identities Bringing Lebanese political parties into a global debate on modernity the book tackles the notion of parties of the Middle East being non modern It will be of interest to scholars researching political science political history and the Middle East **Modern Arabic Literature** Reuven

Di-Capua,2018-03-30 It is a curious and relatively little known fact that for two decades from the end of World War II until the late 1960s existentialism's most fertile ground outside of Europe was in the Middle East and Jean Paul Sartre was the Arab intelligentsia's uncontested champion In the Arab world neither before nor since has another Western intellectual been so widely translated debated and celebrated By closely following the remarkable career of Arab existentialism Yoav Di Capua reconstructs the cosmopolitan milieu of the generation that tried to articulate a political and philosophical vision for an egalitarian postcolonial world He tells this story by touring a fascinating selection of Arabic and Hebrew archives including unpublished diaries and interviews Tragically the warm and hopeful relationships forged between Arab intellectuals Sartre Simone de Beauvoir and others ended when on the eve of the 1967 war Sartre failed to embrace the Palestinian cause Today when the prospect of global ethical engagement seems to be slipping ever farther out of reach No Exit provides a timely humanistic account of the intellectual hopes struggles and victories that shaped the Arab experience of decolonization and a delightfully wide ranging excavation of existentialism's non Western history *Revolutionary Life* Asef Bayat,2021-11-16

From a leading scholar of the Middle East and North Africa comes a new way of thinking about the Arab Spring and the meaning of revolution From the standpoint of revolutionary politics the Arab Spring can seem like a wasted effort In Tunisia where the wave of protest began as well as in Egypt and the Gulf regime change never fully took hold Yet if the Arab Spring failed to disrupt the structures of governments the movement was transformative in farms families and factories souks and schools Seamlessly blending field research on the ground interviews and social theory Asef Bayat shows how the practice of everyday life in Egypt and Tunisia was fundamentally altered by revolutionary activity Women young adults the very poor and members of the underground queer community can credit the Arab Spring with steps toward equality and freedom There is also potential for further progress as women's rights in particular now occupy a firm place in public discourse preventing retrenchment and ensuring that marginalized voices remain louder than in prerevolutionary days In addition the Arab Spring empowered workers in Egypt alone more than 700 000 farmers unionized during the years of protest Labor activism brought about material improvements for a wide range of ordinary people and fostered new cultural and political norms that the forces of reaction cannot simply wish away In Bayat's telling the Arab Spring emerges as a paradigmatic case of reolution revolution that engenders reform rather than radical change Both a detailed study and a moving appeal *Revolutionary Life* identifies the social gains that were won through resistance **Israel Yearbook on Human Rights, Volume 48 (2018)**

proclamations **Youth in Regime Crisis** Félix Krawatzek, 2018-09-20 How do political regimes respond to the challenges emanating from youth mobilization This book seeks to understand regime resilience and breakdown by analysing the public meaning of youth as well as the physical mobilization of young people Mobilization carried by young people is a key component in understanding the stabilisation of the authoritarian regime structures in contemporary Russia but the Russian experience makes only sense if placed in its broader historical context Three comparative cases the breakdown of the authoritarian Soviet Union the breakdown of the democratic Weimar Republic and the crisis of the democratic regime in France around 1968 highlight how regimes which lacked popular support have compensated for their insufficient legitimacy by trying to mobilize youth symbolically and politically This book illustrates the symbolic significance of youth and its role in regime crisis by analysing a new data set of newspaper articles with a new method of discourse analysis The combination of qualitative interpretation and quantitative network analysis enables a deeper and more systematic understanding of discursive structures about youth Through this methodological innovation the book contributes to the way we define the categories of youth generation and crisis It makes the case that our conceptualisation should reflect the way terms are being used usages that can be captured in a systematic way with new methods of discourse analysis Oxford Studies in Democratization is a series for scholars and students of comparative politics and related disciplines Volumes concentrate on the comparative study of the democratization process that accompanied the decline and termination of the cold war The geographical focus of the series is primarily Latin America the Caribbean Southern and Eastern Europe and relevant experiences in Africa and Asia The series editor is Laurence Whitehead Senior Research Fellow Nuffield College University of Oxford **Palestine Across Millennia** Nur Masalha, 2022-02-24 In this magisterial cultural history of the Palestinians Nur Masalha illuminates the entire history of Palestinian learning with specific reference to writing education literary production and the intellectual revolutions in the country The book introduces this long cultural heritage to demonstrate that Palestine was not just a holy land for the four monotheistic religions Islam Christianity Judaism and Samaritanism rather the country evolved to become a major international site of classical education and knowledge production in multiple languages including Sumerian Proto Canaanite Greek Syriac Arabic Hebrew and Latin The cultural saturation of the country is found then not solely in landmark mosques churches and synagogues but in scholarship historic schools colleges famous international libraries and archival centres This unique book unites these renowned institutions movements and multiple historical periods for the first time presenting them as part of a cumulative and incremental intellectual advancement rather than disconnected periods of educational excellence In doing so this multifaceted intellectual history transforms the orientations of scholarly research on Palestine and propels current historical knowledge on education and literacy in Palestine to new heights *Cities as Built and Lived Environments* Aptin Khanbaghi, 2019-07-31 These 200 abstracts in English Arabic and Turkish showcase scholarship that examines cities as built architecture and urban infrastructure and lived urban social life and
