Contemporary Dystopian Fiction for Young Adults Balaka Basu, Katherine R. Broad, Carrie Hintz, 2013-05-02 Winner of the Children's Literature Association Edited Book Award From the jaded wired teenagers of M T Anderson's Feed to the spirited young rebels of Suzanne Collins The Hunger Games trilogy the protagonists of Young Adult dystopias are introducing a new generation of readers to the pleasures and challenges of dystopian imaginings As the dark universes of YA dystopias continue to flood the market Contemporary Dystopian Fiction for Young Adults Brave New Teenagers offers a critical evaluation of the literary and political potentials of this widespread publishing phenomenon With its capacity to frighten and warn dystopian writing powerfully engages with our pressing global concerns liberty and self determination environmental destruction and looming catastrophe questions of identity and justice and the increasingly fragile boundaries between technology and the self When directed at young readers these dystopian warnings are distilled into exciting adventures with gripping plots and accessible messages that may have the potential to motivate a generation on the cusp of adulthood This collection enacts a lively debate about the goals and efficacy of YA dystopias with three major areas of contention do these texts reinscribe an old didacticism or offer an exciting new frontier in children's literature Do their political critiques represent conservative or radical ideologies And finally are these novels high minded attempts to educate the young or simply bids to cash in on a formula for commercial success This collection represents a prismatic and evolving understanding of the genre illuminating its relevance to children's literature and our wider culture

Inhabitable Infrastructures CJ Lim, 2017-05-25 Inhabitable Infrastructures Science fiction or urban future the follow up to Food City and Smartcities and Eco Warriors from one of the world's leading urban design and architectural thinkers explores the potential of climate change related multi use infrastructures that address the fundamental human requirements to protect to provide and to participate The stimulus for the infrastructures derives from postulated scenarios and processes gleaned from science fiction and futurology as well as the current body of scientific knowledge regarding changing environmental impacts on cities Science fiction is interdisciplinary by nature aggregates the past and present and evaluates both lay opinions and professional strategies in an attempt to develop foresight and to map possible futures The research culminates in the creation of innovative multi use infrastructures and integrated self sustaining support systems that meet the challenges posed through climate change and overpopulation and the reciprocal benefits of simultaneously addressing the threat and the shaping of cities J G Ballard has written that the psychological realm of science fiction is most valuable in its predictive function and in projecting emotions into the future The knowledge from the book is widely transferable constituting both solutions and speculative visions of future urban environments The book is indispensable reading for professionals and students in the fields of urban design architecture engineering and environmental socio politics

Readers In Wonderland Deborah O'Keefe, 2004-08-03 O Keefe examines a wide range of

children's fantasy books and draws on her own experiences as a sympathetic reader as well as on the views of psychologists and social theorists. Readers in Wonderland ranges from William Steig's small picture books to J. R. R. Tolkien's epic series from utopias like L. Frank Baum's Oz to dystopias like Virginia Hamilton's Dustland from less known works like Patricia Wrightson's to the phenomenon that is J. K. Rowling's Harry Potter from time travel to parallel worlds and from magical transformations and wishes that come true to lonely journeys and huge battles of good against evil.

BOOK JACKET

Book Crush Nancy Pearl, 2009-09-29 Do you remember your first book crush? You know the first time a book completely captured your imagination, transported you to a magical place or introduced you to a lifelong friend you will never forget. In *Book Crush*, popular librarian and reading enthusiast Nancy Pearl reminds us why we fell for reading in the first place: how completely consuming and life-changing a good book can be. Pearl offers more than 1,000 crush-worthy books organized into over 100 recommended reading lists aimed at youngest, middle grade and teen readers. From picture books to chapter books, YA fiction and nonfiction, Pearl has developed more smart and interesting thematic lists of books to enjoy. Parents, teachers and librarians are often puzzled by the unending choices for reading material for young people. It starts when the kids are toddler and doesn't end until high school graduation. What's good, what's not and what's going to hold their interest? Popular librarian Nancy Pearl points the way in *Book Crush*.

Female Rebellion in Young Adult Dystopian Fiction Sara K. Day, Miranda A. Green-Barteet, Amy L. Montz, 2016-04-15 Responding to the increasingly powerful presence of dystopian literature for young adults, this volume focuses on novels featuring a female protagonist who contends with societal and governmental threats at the same time that she is navigating the treacherous waters of young adulthood. The contributors relate the liminal nature of the female protagonist to liminality as a unifying feature of dystopian literature for and about young women and cultural expectations of adolescent womanhood. Divided into three sections, the collection investigates cultural assumptions and expectations of adolescent women, considers the various means of resistance and rebellion made available to and explored by female protagonists and examines how the adolescent female protagonist is situated with respect to the groups and environments that surround her. In a series of thought-provoking essays on a wide range of writers that includes Libba Bray, Scott Westerfeld, Tahereh Mafi, Veronica Roth, Marissa Meyer, Ally Condie and Suzanne Collins, the collection makes a convincing case for how this rebellious figure interrogates the competing constructions of adolescent womanhood in late twentieth and early twenty-first century culture.

Danny Boyle - Lust for Life Mark Browning, 2012-05-01 Danny Boyle is one of contemporary filmmaking's most exciting talents. Since the early 1990s he has steadily created a body of work that crosses genres and defies easy categorisation: from black humour *Shallow Grave*, gritty realism *Trainspotting*, screwball comedy *A Life Less Ordinary*, cult adaptations *The Beach* and horror *28 Days Later* to science fiction *Sunshine*, children's drama *Millions*, love stories *Slumdog Millionaire* and tales of personal redemption *127 Hours*. Unlike many of his peers, Boyle seems most comfortable when working with modest budgets, relying on acting

ability rather than special effects and surrounding himself with a trusted team of writers cinematographers and production designers His restless energy vitality and drive find their expression in the celebratory tone of his films their lust for life In this book Mark Browning provides a rigorous but highly accessible analysis of Boyle s work discussing the processes by which he absorbs generic and literary influences the way he gains powerful performances both from inexperienced casts and A list stars his portrayal of regional identity his use of moral dilemmas as a narrative trigger and the religious undercurrents that permeate his films

Science Fact and Science Fiction Brian Stableford,2006-09-06 Science fiction is a literary genre based on scientific speculation Works of science fiction use the ideas and the vocabulary of all sciences to create valid narratives that explore the future effects of science on events and human beings Science Fact and Science Fiction examines in one volume how science has propelled science fiction and to a lesser extent how science fiction has influenced the sciences Although coverage will discuss the science behind the fiction from the Classical Age to the present focus is naturally on the 19th century to the present when the Industrial Revolution and spectacular progress in science and technology triggered an influx of science fiction works speculating on the future As scientific developments alter expectations for the future the literature absorbs uses and adapts such contextual visions The goal of the Encyclopedia is not to present a catalog of sciences and their application in literary fiction but rather to study the ongoing flow and counterflow of influences including how fictional representations of science affect how we view its practice and disciplines Although the main focus is on literature other forms of science fiction including film and video games are explored and because science is an international matter works from non English speaking countries are discussed as needed
