From Enterprise Architecture to IT Governance Klaus D. Niemann, 2007-08-19 This book is addressed to IT decision makers who face the task of securing and exploiting the overall potential presented by their information systems despite budget constraints It concerns itself with the task of establishing IT governance processes that ensure comprehensive control as one moves from strategic planning to operational implementation This task demands orientation and transparency i.e. a management information system for the CIO Such a system is available in the form of enterprise architecture EA EA delivers clear answers it reveals deficiencies illustrates the complex interaction of business processes applications and infrastructure and provides a foundation for the kinds of analysis that give us the right information and enable genuine IT governance The term IT governance is more than a mere buzzword As an IT executive one may sense that one's information systems are out of kilter and that it will be necessary to take action to avoid being treated as if one were a magic orange that continues to yield 1 juice no matter how often it is squeezed While governance or control sounds like the right response it is not clear where we should begin Do we know exactly where the gears need lubrication Do we know where the rust has taken hold The reports from the IT jungle are full of

examples of tech logical frivolity heterogeneous infrastructure environments servers running below capacity redundant hardware and superfluous development tools *E-Transit* Mitretek Systems, 2011 TRB's Transit Cooperative Research Program TCRP Report 84 e Transit Electronic Business Strategies for Public Transportation Volume 9 Transit Enterprise Architecture and Planning Framework presents multifaceted methods tools and examples within a framework to help transit agencies successfully implement technologies The report describes the connections between a transit agency's business and the technology assists with building the business case for specific investments highlights different financing options provides guidance on an enterprise wide approach to create more efficient and effective system deployments and provides a method to show the benefits of a technology investment The report provides a framework that incorporates five systems management disciplines Enterprise Architecture Planning Business Case Methodology Systems Engineering Financial Implementation Methods and Post Implementation Assessment The declining costs of communications data storage and data retrieval are accelerating the opportunities spawned by the Internet and other information and communications technologies Choosing and sequencing investments in technologies processes and people to reduce costs and increase productivity present challenges to the transit manager who must weigh the costs benefits and risks of changing the ways services are delivered To assist in meeting such challenges the TCRP Report 84 e Transit Electronic Business Strategies for Public Transportation series documents principles techniques and strategies that are used in electronic business for public transportation
