LET'S GET STARTED

To make sure you get the **rite fit**, print this document on 8.5" X 11" paper at 100% (uncheck 'page scaling'). Double check your scale by simply placing a credit card in the box above. Next, cut out the width ruler and set it aside.

START WITH LENGTH

- Have your child stand up against the wall on a hard, flat surface.
- With the size guide under their bare foot, place one heel on the dotted line where you see the little foot icon.
- Find your child's size by identifying the first line past the longest toe and mark that exact point.
- Use the handy box above to record that measurement, then measure the second foot.

WIDTH COUNTS, TOO

- Wrap the width ruler around the ball of the foot until it joins the starting point (the widest part of the foot).
- Make sure your child is standing tall on a flat surface so you get the widest measurement.
- Remember their shoe size we just found? Just match that number up with the width on the ruler.
- Your child's foot will be medium, wide or extra wide.
- Record the width in the box in the box below, then measure the second foot.

LENGTH + WIDTH = SIZE

It's very common to have one foot longer than the other, so you want to measure both feet. Just identify the longest and widest measurement in the box above. That's your child's size. Remember to re-measure for every purchase as a child's foot can grow up to one half shoe size every three months.
