Fahrenheit 451 - Literature Kit Gr. 9-12 Chad Ibbotson, 2016-01-01 Get drawn into a dystopian world to witness the struggle between one's self and their society. Students imagine what themes might be present in a dystopian future as perceived during the early 1950s. Predict what will happen to the woman whose books were hidden in the attic. Complete a paragraph from the novel with their missing vocabulary words. Answer multiple choice questions about the character Faber. Students reflect on the women's discussion of the two presidential candidates and whether a person's name and appearance plays any factor in today's politics. Depict an alternate reality where Beatty and Montag join forces concerning their interest with books and the information they contain. Aligned to your State Standards and written to Bloom's Taxonomy. Additional crossword, word search, comprehension quiz, and answer key are also included. About the Novel *Fahrenheit 451* written by Ray Bradbury is the story of a man's struggle with his society and himself. The story begins with Guy Montag, a fireman charged with the job of burning books that have become outlawed. In this society, books have been deemed to have no value with new media and sports accommodating short attention spans. His struggle begins when he meets his neighbor Clarisse McClellan, a free thinker that begins to open his mind. From there, he soon finds himself stealing the books he was tasked to destroy. Montag's struggle culminates in an attempt to discover the value of books, himself putting him in the very same danger as those he once persecuted.

The World History Workbook David Hertz, 2009-03-16
This innovative and user-friendly two-volume workbook is designed to guide students and instructors through the ideas and methods of the growing field of world history. Useful as either a supplement or a core text, this hands-on book provides all the elements necessary to conduct a full-fledged world history course, including narrative projects, primary sources, and a glossary of terms. Using the guiding thematic argument that world history is the history of a single humanity, David Hertz asks students to examine historical universals such as language and the unified heritage of languages, genealogy, myth, motifs, and themes of literature and archetypes. Rather than provide exhaustive coverage of each of these vast topics, the workbook provides judiciously selected historical examples as models from which instructors and students can open discussion suitable to the time and circumstance of the particular class. The projects guide students to recognize universals in their own lives and societies, allowing instructors and students to pursue historical themes in a critical and open environment. Despite the rigor of the comparative method and the extensive use of primary material, the workbook retains a simple but powerful theme and approach, making it accessible to students representing a wide range of educational and social backgrounds.

Critical Thinking and Language Tim John Moore, 2011-10-13
This book clarifies the idea of critical thinking by investigating the critical practices of academics across a range of disciplines. Drawing on key theorists Wittgenstein, Geertz, Williams, Halliday, and using a textographic approach, the book explores how the concept of critical thinking is understood by academics and also how it is constructed discursively in the texts and practices they employ in their teaching. Critical thinking is one of the most widely discussed concepts in debates on university learning. For many, the idea of teaching students to be critical thinkers characterizes more than anything else the overriding purpose of higher education. But whilst there is general agreement about its importance as an educational ideal, there is surprisingly little agreement about what the concept means exactly. Also at issue is how and what students need to be taught in order to be properly critical in their field. This searching monograph seeks answers to these important questions.
