

Student Activity Sheet: Investigating the Declaration of Independence

Background:

In 1776, Jefferson was chosen (with Franklin, Adams, and others) to write a declaration of the colonies' independence. The draft presented to the Second Continental Congress was largely Jefferson's work. To his disappointment, however, Congress made changes before approving the document. They dropped Jefferson's condemnation of the British for tolerating a corrupt Parliament, and they struck out a strong statement against slavery.

Part I – Preamble:

The unanimous Declaration of the thirteen United States of America, When in the course of human events, it becomes necessary for one people to dissolve the political bands which have connected them with another, and to assume among the powers of the earth, the separate and equal station to which the laws of nature and of nature's God entitle them, a decent respect to the opinions of mankind requires that they should declare the causes which impel them to the separation.

Questions:

According to this paragraph, what is the goal of the writers?

The goal of the writers is to cut political ties with Great Britain

Why are they writing this document?

They are writing this document to tell Britain they are going to cut ties with them and become independent

Make a prediction of what will come next in the document based on what you have read in the "Preamble."

I believe that they will talk about how bad and corrupt Parliament is.

Part II – Beliefs

We hold these truths to be self-evident: that all men are created equal; that they are endowed by their Creator with certain unalienable rights; that among these are life, liberty and the pursuit of happiness; that to secure these rights, governments are instituted among men, deriving their just powers from the consent of the governed; that whenever any form of government becomes destructive of these ends, it is the right of the people to alter or to abolish it, and to institute new government, laying its foundation on such principles and organizing its powers in such form, as to them shall seem most likely to affect their safety and happiness. Prudence, indeed, will dictate that governments long established should not be changed for light and transient causes; and accordingly all experience hath shown, that
