South African Army Application 2015

Rachel Woodward, Claire Duncanson

South African Army Application 2015:

South Africa's Post-Apartheid Military Lindy Heineken, 2020-01-01 This timely book examines how the South African National Defence Force has adapted to the country's new security political and social environment since 1994. In South Africa's changed political state, how has civilian control of the military been implemented and what does this mean for defence in a democracy? This book presents an overview of the security environment, how the mission focus of the military has changed and the implications for force procurement, force preparation, force employment and force sustainability. The author addresses other issues such as the effect of integrating former revolutionary soldiers into a professional armed force, the effect of affirmative action on meritocracy, recruitment and retention of military veterans, looking at the difficulties they face in reintegrating back into society and finding gainful employment, gender equality and mainstreaming the rise of military unions and why a confrontational instead of a more corporatist approach to labour relations has emerged. HIV/AIDS and the consequences this holds for the military in terms of its operational effectiveness. In closing, the author highlights key events that have caused the SANDF to become lost in transition and transformation, spelling out some lessons learned. The conclusions she draws are pertinent for the future of defence security and civil-military relations of countries around the world.

Private Military and Security Contractors Gary Schaub, Jr., Ryan Keltz, 2016-06-16 In *Private Military and Security Contractors*, PMSCs, a multinational team of scholars and experts address a developing phenomenon: controlling the use of privatized force by states in international politics. Robust analyses of the evolving multi-layered tapestry of formal and informal mechanisms of control address the microfoundations of the market, such as the social and role identities of contract employees, their acceptance by military personnel and potential tensions between them. The extent and willingness of key states—South Africa, the United States, Canada, the United Kingdom and Israel—to monitor and enforce discipline to structure their contractual relations with PMSCs on land and at sea is examined, as is the ability of the industry to regulate itself. Also discussed is the nascent international legal regime to reinforce state and industry efforts to encourage effective practices, punish inappropriate behavior and shape the market to minimize the hazards of loosening states' oligopolistic control over the means of legitimate organized violence. The volume presents a theoretically informed synthesis of micro and macro levels of analysis, offering new insights into the challenges of controlling the agents of organized violence used by states for scholars and practitioners alike.

Intra-Africa Migrations Innocent Moyo, Jussi P. Laine, Christopher Changwe Nshimbi, 2021-02-21. This book discusses regional and continental integration in Africa by examining the management of migration across the continent. It examines borders and securitisation of migration and the challenges and opportunities that arise out of reconfigured continental demographics. The book offers insights on intra-Africa migrations and highlights how intra-continental migration creates socio-economic and cultural borders. It explores how these borders beyond the physical boundaries of states, including the Berlin Conference constructed borders, create cultural divides, challenges for economic integration and cross-border security and irregular migration patterns. While the movement of economic goods is valued for regional economic integration, the mobility of people is seen as a threat. This approach to migration contradicts the intentions of true integration and development and triggers negative responses such as xenophobia that cannot be addressed by simply managing the physical border and allowing free movement. This book engages in a pivotal discussion of these issues which are hitherto missing in African border studies by demonstrating the ubiquity and overreaching influence of various kinds of borders on the African continent. With multidisciplinary contributions that provide an in-depth understanding of intra-Africa migrations and strategies for enhanced migration management, this book will be a useful resource for scholars and students studying geography, politics, security studies, development studies, African studies and sociology.

Women and Gender Perspectives in the Military Robert Egnell, Mayesha Alam, 2019-02-01. *Women and Gender Perspectives in the Military* compares the integration of women, gender perspectives and the women, peace and security agenda into the armed forces of eight countries plus NATO and United Nations peacekeeping operations. This book brings a much-needed cross-national analysis of how militaries have or have not improved gender balance, what has worked and what has not, and who have been the agents for change. The country cases examined are Sweden, the Netherlands, Canada, the United States, the United Kingdom, Israel, Australia and South Africa. Despite increased opportunities for women in the militaries of many countries and wider recognition of the value of including gender perspectives to enhance operational effectiveness, progress has encountered roadblocks even nearly twenty years after United Nations Security Council Resolution 1325 kicked off the women, peace and security agenda. Robert Egnell, Mayesha Alam and the contributors to this volume conclude that there is no single model for change that can be applied to every country, but the comparative findings reveal many policy-relevant lessons while advancing scholarship about women and gendered perspectives in the military.

the Use of Force Erika De Wet, 2020 This book examines the extent which the proliferation of military assistance on request is changing the rules governing the use of force The author explores the authority to make these requests particularly during civil wars where some territorial control may be lost and there is a risk of systematic violations of international humanitarian law

South Africa and United Nations Peacekeeping Offensive Operations Antonio Garcia, 2018-08-17 The creation of the Force Intervention Brigade FIB as the sharp tactical edge of the United Nations Stabilisation Mission in the Democratic Republic of the Congo MONUSCO tasked with the neutralising of armed groups was a watershed moment in the history of modern peace missions What was more significant was that sub Saharan national leaders were instrumental in the creation of the FIB South Africa Tanzania and Malawi but lacked the resources to deploy such a force and consequently the brigade was deployed under the banner of the UN With the legacy of an African Renaissance and its role in the conception of the FIB South Africa remains a critical player in international peace and security in sub Saharan Africa and therefore holds a key strategic role in achieving the FIBs objectives This comes at a critical time where blue helmets are increasingly exposed to complex and challenging security contexts The aim of this work is to provide a conceptual model for South African military future operations and UN offensive peacekeeping operations In this undertaking a layer of military and Clausewitzian theory is added to offensive peacekeeping operations Furthermore there are sections on operational constructs capstone and operating concepts doctrine and structural elements as well a section on mine action This book contributes towards an understanding of the nature of modern strategy through the lens of UN offensive peacekeeping operations and provides insights into operational challenges

Botha, Smuts and the Great War Antonio Garcia, Ian van der Waag, 2023-10-30 In Botha Smuts and the Great War 1914 1918 authors Antonio Garcia and Ian Van Der Waag conducted painstaking research in South Africa and the United Kingdom to produce this first of a kind volume on the wartime roles of South African prime minister General Louis Botha and his deputy General Jan Smuts These very different men appealed to different audiences Botha s nuance and emotional intelligence complemented Smuts s intellectualism Thrown into a world

conflagration in August 1914 and facing internal rebellion and the threat posed by German troops on the borders they led South Africa's Union Defence Force Botha and Smuts commanded in the field. Steadily the South African army they commanded benefiting from wartime training sometimes in the field gained resilience, experience and battle hardiness, adapting to the conditions of the campaigns and the demands of the tasks. South Africa's campaigns were complex and divergent, starting with the invasion of neighbouring German South West Africa to neutralise enemy radio stations and so aid the security of the South Atlantic. Suddenly suspended following the outbreak of the Afrikaner Rebellion, the campaign recommenced in January 1915. Following its conclusion, an infantry brigade raised for Western Front service was diverted to Egypt before facing near annihilation at Delville Wood. Simultaneously, a large South African force fighting alongside British, African and Indian forces overcame German resistance in East Africa, whilst a brigade of field artillery and later the Cape Corps served in Egypt and Palestine. Moreover, approximately 6 500 South Africans served in the British Army, Royal Flying Corps, Royal Air Force and in the Royal Navy. Although lionised during the war by a British public hungry for heroes, there is a different side to Botha and Smuts. Shunned by Afrikaner nationalists at the time, they have remained divisive figures. Responsible for the enactment of the Land Act of 1913, which shaped South Africa's socio-economic and political landscape, Botha's statues in Cape Town, Durban and Pretoria were vandalised on a number of occasions between 2015 and 2022, and there were recent calls for Smuts's statues to be removed. Behind Botha's charming, attractive façade and Smuts's stoic machine were two very human, imperfect and quite probably inconsiderate men. Together they provide a wonderful lens through which to examine the potent forces of the early twentieth-century world and the country they hoped to forge. Myopic compatriots had constrained their plans, but it was the outbreak of war in 1914 that offered the most significant opportunities and brought the most adverse challenges. They fought insurmountable odds and achieved great victories at home and abroad, but also made startling errors and ultimately, in classical fashion, risked being crushed by the weight of the world they tried to create.
