SOUTH ASIA COUNTRY ANALYSES Barış Adıbelli, Elif Gülbaş, Ghulam Farooq Keskin, Hayati Ünlü, Hediye Gamze Türkmen, H. Hilal Şahin, Mohammed Javed Ansari, Nazmul Islam, Ömer Aslan, 2022-12-15 South Asia Strategic Research Center GASAM was founded in 2004 to provide accurate and objective information about the historical political economic and sociocultural structures of the South Asian region composed of Afghanistan Bangladesh Bhutan India Maldives Nepal Pakistan and Sri Lanka as well as about strategic and geopolitical dynamics of the region GASAM aims to inform the Turkish public about South Asian countries and in return inform the South Asian public about Türkiye It also aims to procure mutual benefits for them in the historical economic academic and sociocultural domains and this way to contribute to regional and global peace South Asia Country Analyses provides an overview of the region to improve the understanding of South Asian countries in Türkiye This study aims to become a source of fundamental information about South Asia that will hopefully contribute to improving bilateral relations between Türkiye and the region's countries It also

seeks to explore South Asia's geographical, historical, political, and economic potential and raise general awareness regarding the significance of this region. The study is divided into two parts. The initial section is an introductory chapter discussing the general characteristics of South Asia. The second part provides separate analyses of eight South Asian countries. A different author wrote each chapter in this work. The book is prepared in two languages, Turkish and English, and the texts deliberately avoid complex academic jargon, offering analyses instead in a direct and succinct style. One of the most significant attributes of this book is that it is an objective and collective work. It is also a pioneering study in that there is no such study with this scope either in Turkey or in the region's countries. From this perspective, it is hoped that readers in Turkey and South Asian countries will find this book, sponsored by GASAM, an invaluable compendium of fundamental information about South Asia. We would like to convey our gratitude to every person and institution who supported the realization of our project. We hope that this work will contribute to the social, political, scientific, cultural, and economic activities between Turkey and South Asian countries. Cemal Demir, GASAM President

Remaking Cities Praveen Priyadarshi, 2022-12-30. This book presents a systematic analysis of the differential implementation of the urban reforms in two Indian cities, Ahmedabad and Kanpur. It analyses the enactment of the Jawaharlal Nehru National Urban Renewal Mission (JNNURM) launched in 2005 by the Indian government, which aimed to spatially reorient cities into market-friendly places across 65 cities but finished with only modest success. The volume discusses the specificities of urban governance systems, colonial municipal histories, and nationalist struggle in relation to urban planning and policy reforms to showcase how policies insensitive to these are likely to fail. It identifies historically constituted municipal capacity located in the municipal organisation at the city level as the key determinant of divergent trajectories of the spatial changes. The analysis demonstrates that in Ahmedabad, the politics of the city was historically oriented towards people's relationship with their spaces, enabling a coherent municipal organisation. In the case of Kanpur, however, the local politics evolved in a way that the urban question remained unresolved, which resulted in a fragmented municipal organisation. This variation in the architectures of municipal organisations in the two cities resulted in different levels of municipal capacities at the time of the inauguration of the JNNURM. A richly detailed case study on urban governance issues and development in Indian cities, this book will be an essential read for scholars and researchers of urban studies, urban politics, development studies, social anthropology, social history, political science, development studies, public policy, and governance, urban sociology, and South Asian studies.

frames particularly with regard to religion Addressing this rich and unfolding context the Handbook of Indigenous Religions engages a wide variety of locations and perspectives Drawing upon the efforts of a diverse group of scholars working at the intersection of indigenous studies and religious studies this volume includes a programmatic introduction that argues for new ways of conceptualizing the field of indigenous religions numerous case study based examples and an Afterword by Thomas Tweed
