Readings in Russian Civilization Volume I Thomas Riha, 2009-02-15 This new and enlarged version of Readings in Russian Civilization is the result of fairly extensive revisions There are now 72 instead of 64 items 20 of the selections are new The first volume has undergone the least change with 3 new items of which 2 appear in English for the first time In the second volume there are 6 new items all of them appear in English for the first time The third volume has undergone the greatest revision with 11 new items of which 6 are newly translated from the Russian It is the editor s hope that items left out in the new edition will not be sorely missed and that the new selections will turn out to be useful and illuminating The aim throughout has been to cover areas of knowledge and periods which had been neglected in the first edition and to include topics which are important in the study of the Russian past and present The bibliographical headnotes have been enlarged with the result that there are now approximately twice as many entries as in the old edition New citations include not only works which have appeared since 1963 but also older books and articles which have come to the editor s attention From the Editor s Preface a judicious combination of seminal works and more recent commentaries that achieves the editor s purpose
