Children and Youth with Special Needs Libby G. Cohen, Loraine J. Spenciner, 2003 Assessment of Children and Youth Second Edition is a comprehensive assessment book that provides balanced coverage of special education assessment of children and youth ages 3-20. Easy for readers to understand the book reviews traditional and alternative assessment approaches and discusses the strengths and weaknesses of each. Coverage of informal and performance based assessments across the curriculum teaches students how approaches in the general education classroom apply to students both with and without disabilities. For anyone interested in learning about the assessment of students with disabilities. *Tracking Student Achievement in Science and Math*, 1995. *Assessing Students with Special Needs* John Venn, 2007 Known for its practical applied approach the fourth edition of John Venn's *Assessing Students with Special Needs* continues to focus on how teachers can use assessment as a guide to instruction. This noteworthy revision focuses on what teachers really need to know to include assessment in the curriculum. Coverage includes all of the core information expected of an assessment text but the book goes far beyond the basics by addressing multicultural considerations, technology and assessment, high stakes testing and the reauthorization of IDEA. The book clearly shows how assessment is more than giving a test to a child but is an essential tool for teachers as they help students achieve, learn, develop and grow. **The Supplement to the ...
