D-STAR Radio Programming Guide

Digital D-STAR opens up a new technology for amateur radio. Use and linking are not exactly preformed as we know conventional FM, IRLP or internet repeater operations. There are two methods of digital repeater linking with D-STAR: user and port linking. This document is an introduction to D-STAR linking and Internet operating (many thanks to the Alabama D-Star group for providing the information in this Guide).

Example 1: Local conversation

Greg (W4OZK) calls Ron (W4VM) on the Huntsville local D-STAR 2 meter repeater.

Greg configures his **IC-91AD** radio as follows:

UR : CQCQCQ
R1 : KI4PPF C
R2 : NOT USE*
MY : W4OZK

Channeling Violence James T. Hamilton, 2021-04-13 If it bleeds it leads The phrase captures television news directors famed preference for opening newscasts with the most violent stories they can find And what is true for news is often true for entertainment programming where violence is used as a

product to attract both viewers and sponsors In this book James Hamilton presents the first major theoretical and empirical examination of the market for television violence Hamilton approaches television violence in the same way that other economists approach the problem of pollution that is as an example of market failure He argues that television violence like pollution generates negative externalities defined as costs borne by others than those involved in the production activity Broadcasters seeking to attract viewers may not fully bear the costs to society of their violent programming if those costs include such factors as increased levels of aggression and crime in society Hamilton goes on to say that the comparison to pollution remains relevant when considering how to deal with the problem Approaches devised to control violent programming such as restricting it to certain times and rating programs according to the violence they contain have parallels in zoning and education policies designed to protect the environment Hamilton examines in detail the microstructure of incentives that operate at every level of television broadcasting from programming and advertising to viewer behavior so that remedies can be devised to reduce violent programming without restricting broadcasters right to compete
