Romanic Review, 1929 *Grattius* Steven J. Green, 2018-03-09 *Grattius Cynegetica* a Roman didactic poem on hunting with dogs is the author's only surviving work though it reaches us now in an incomplete form Thanks to a passing reference by Ovid in his *Epistulae ex Ponto* it can confidently be dated to the Augustan period and yet while his literary contemporaries have been and continue to be subjects of academic scrutiny *Grattius* is seldom read and remains almost completely unappreciated in classical and literary scholarship This volume is the first book length study of *Grattius* in English or any other language and sets out to rehabilitate the neglected poet by making him and his work accessible to a wide audience Prefaced by an introduction to the poet and his work as well as the Latin text of *Cynegetica* and a new English translation it presents a broad collection of interpretive essays from an international team of scholars These essays explore the poem within its literary intellectual and socio political contexts and look forward to

Grattius more charitable posthumous reception in Europe in the sixteenth to eighteenth centuries As a whole they aim to reveal his enduring relevance for the tradition of didactic poetry and the study of other Augustan poetry and culture and to provide an impetus for future discussions

Transformative Pedagogical Perspectives on Home Language Use in Classrooms Jules, Janice E.,Belgrave, Korah L.,2020-09-25

Linguists researchers and other practitioners in language education acknowledge that the resolution of language problems associated with breaking down language and cultural barriers that hinder the growth of learners self identities and national identities is ongoing In fact even with decades of research in home language use in the classroom there are still classrooms worldwide where learners are deprived of the opportunity of building their self esteem confidence and autonomy by communicating with their native language The global nature of communication requires speakers to use all the languages in their repertoire effectively thus reinforcing the need to encourage home language use in classrooms

A Man of Many Parts Barbara Rawlinson,2006-01-01

This comprehensive study of George Gissing's short stories and related non-fiction is essential reading for students of nineteenth-century realism. For the first time, readers will be able to follow the development which transformed Gissing's unremarkable early stories into the very individual tales that elevated his work to the vanguard of realistic short fiction. Gissing's American period is notable for its accumulation of themes that were repeatedly refined and adapted for his later work, causality emerging as the dominant voice. On his return to England, shifting political and philosophical beliefs expressed in his non-fiction had a vital impact on his second phase of short fiction, and the part played by realism in the author's short stories and his writings on Charles Dickens added further dimensions to his work as a whole. By the final phase of Gissing's remarkable development, it is evident that his interest in the concept of causality as the major force in his short work had been replaced by a more challenging preoccupation with the human psyche. This introduced philosophical, sociological, and psychological dimensions to Gissing's work that established him in the field of short fiction as a leading exponent of late nineteenth-century realism.

Shakespeare in Quebec Jennifer Drouin, 2014-01-01 In *Shakespeare in Quebec*, Jennifer Drouin analyses representations of nation and gender in Shakespearean adaptations written in Quebec since the Quiet Revolution. Using postcolonial and gender theory, Drouin traces the evolution of discourses of nation and gender in Quebec from the Conquest of New France to the present and she elaborates a theory of adaptation specific to Shakespeare studies. Drouin's book explains why Quebecois playwrights seem so obsessed with rewriting *le grand Will*, what changes they make to the Shakespearean text, and how the differences between Shakespeare and the adaptations engage the nationalist, feminist, and queer concerns of Quebec society. Close readings from ten plays investigate the radical changes to content that allowed Quebecois playwrights to advocate for political change and contribute to the hot debates of the Quiet Revolution, the 1970 October Crisis, the 1980 and 1995 referenda, the rise of feminism, and the emergence of AIDS. Drouin reveals not only how Shakespeare has been adapted in Quebec but also how Quebecois adaptations have evolved in response to changes in the political climate. As a critical analysis in English of rich but largely ignored French plays, *Shakespeare in Quebec* bridges Canada's two solitudes.

The Politics of Big Fantasy John C. McDowell, 2014-07-16 Bringing critical attention to a particular set of science-fiction and fantasy films, Larry and Andy Wachowski's *The Matrix*, George Lucas' *Star Wars* saga, and Joss Whedon's *Avengers*, this book utilizes a wide-ranging set of critical tools to illuminate their political ideologies while also examining any resistant and complicating turns or byways the films may provide. What they all have in common ideologically is that they or at least the genres they belong to tend to be regarded as belonging to politically conservative frames of sociocultural reference. With the *Star Wars* saga, however, this idea is shown to be superficial and weak.

Gordon Mowat, John Alexander Cooper, Newton MacTavish, 1929 **Literacies of Power** Donaldo Macedo, 2018-03-09 **Literacies of Power** illustrates the many ways American schools media and other social institutions perpetuate ignorance In this new expanded edition Donaldo Macedo shows why so called common culture literacy is a form of dominant cultural reproduction that undermines independent thought and goes against the best interests of our students Offering a wide

ranging counterargument Macedo shows why cultural literacy cannot be restricted to the acquisition of Western heritage values which sustain an ideology that systematically negates the cultural experiences of many members of society not only minorities but also anyone who is poor or disenfranchised Macedo calls on his own experience as a Cape Verdean immigrant from West Africa who had to surmount the barriers imposed by the world's most entrenched monolingual system of higher education His eloquence in this book is testimony to the very idea that critical thinking and good education are not and must not be culturally or linguistically bounded A new concluding chapter by the author critically challenges the crucial role of schools in the manufacture of consent for the war in Iraq and the Patriot Act and the charitable racism that is too often evident in the field of ESL In essays new to this edition well known and respected educators Joe Kincheloe Peter McLaren and Shirley Steinberg share their insights on Macedo's message complementing Paulo Freire's foreword to the original edition
