This book is intended to serve as a robust and practical guide to leaders of enterprises tasked with both understanding and delivering success in the new landscape of retailing. The book firstly describes the major directions and drivers of change that define the new global landscape of retailing. Part 1 Accelerating technology change the rise to prominence globally of internet enabled shoppers and the rapid emergence of entirely new retail enterprises and business models are combining to re shape the very fundamentals of the retail industry. No longer is the act of retailing solely the preserve of traditional retail enterprises as internet enabled businesses technology logistics suppliers and financial services enterprises all seek direct relationships with the shopper. The new landscape of retailing is an unforgiving one. Success can be achieved more quickly than has ever been possible before but failure is equally rapid. The opportunities in the new landscape of retailing are profound but so too are the challenges. Part 2 of this book discusses the structures skills and capabilities retail enterprises will need if they are to be successful in this new landscape and the skills and perspectives that will be required of the leaders of retail enterprises. Case studies of innovative and successful enterprises are presented throughout the book to illustrate the themes discussed. Frameworks are presented to provide practical guidance for enterprise leaders to understand and contextualise the nature of change that is re shaping retail landscapes globally.
