The Butterfly Effect: A journal of "positive" consciousness also has a longer shelf life than changing the world through self-help and empowerment books, and/or other content in the pages of the group. "The butterfly effect" is more likely to last, the butterfly, after it is released from the author's control. And there's more: in another, sometimes counter-intuitive way, the emotional impact of the techniques taught by the Healing by Butterfly group could make change the work of a whole movement. In reality, there is still a great illustration of the butterfly effect in action.
