The Economics of Defense Industry Thomas-Durell Young,2023-10-17 This book on the economics of defence industry assesses a series of historical and contemporary case studies that consistently demonstrate the need for governments to recognise and thereafter factor the financial needs of a narrow industrial sector that is capital intensive technologically advanced and that requires a highly skilled labour force Since the end of the cold war Western governments have systematically reduced financial support to their domestic defence industry and have seemingly ignored planning and funding industrial mobilisation In all cases government policy has been to encourage industries to consolidate capacity to become financially viable in a sector that has seen diminished demand The 2022 Russian invasion of Ukraine has caused Western governments to reassess their previous assumptions Efforts to increase industrial capacity have been met with the iron laws of economics whereby businesses need to show return on investments The chapters in this volume posit that efforts to rationalise industrial capacity and innovation to meet short term financial efficiencies inevitably results in limited expensive and long delays in increased production in times of international crisis This book serves as an essential guide for academics researchers and students interested in

defence economics industrial economics international relations and industrial policy The chapters in this book were originally published in various issues of Defense Security Analysis **Intimations of Nostalgia** Michael Hviid Jacobsen,2021-11-05

This volume investigates the relationship between nostalgia and contemporary social issues From history and political theory to marketing and media each chapter discusses the way nostalgia has been presented within a specific disciplinary context and shows how nostalgia as a topic of research has evolved over time **Seaforth World Naval Review 2013** Conrad

We Refuse Kellie Carter Jackson, 2024-06-04 An unsparing erudite and incisive Jelani Cobb staff writer The New Yorker reframing of the past and present of Black resistance both nonviolent and violent to white supremacy Named a Best Book of 2024 by Smithsonian Kirkus Chicago Review of Books Emancipator Ms Magazine Black resistance to white supremacy is often reduced to a simple binary between Dr Martin Luther King Jr's nonviolence and Malcolm X's by any means necessary In We Refuse historian Kellie Carter Jackson urges us

to move past this false choice offering an unflinching examination of the breadth of Black responses to white oppression particularly those pioneered by Black women The dismissal of Black violence as an illegitimate form of resistance is itself a manifestation of white supremacy a distraction from the insidious unrelenting violence of structural racism Force from work stoppages and property destruction to armed revolt has played a pivotal part in securing freedom and justice for Black people since the days of the American and Haitian Revolutions But violence is only one tool among many Carter Jackson examines other no less vital tactics that have shaped the Black struggle from the restorative power of finding joy in the face of suffering to the quiet strength of simply walking away Clear eyed impassioned and ultimately hopeful *We Refuse* offers a fundamental corrective to the historical record a love letter to Black resilience and a path toward liberation

Revolutions and Reconstructions Van Gosse, David Waldstreicher, 2020-08-28 *Revolutions and Reconstructions* gathers historians of the early republic the Civil War era and African American and political history to consider not whether black people participated in the politics of the nineteenth century but how when and with what lasting effects Collectively its authors insist that historians go beyond questioning how revolutionary the American Revolution was or whether Reconstruction failed and focus instead on how political change initiated by African Americans and their allies constituted the rule in nineteenth century American politics not occasional and cataclysmic exceptions The essays in this groundbreaking collection cover the full range of political activity by black northerners after the Revolution from cultural politics to widespread voting within a political system shaped by the rising power of slaveholders Conceptualizing a new black politics contributors observe requires reorienting American politics away from black white and North South polarities and toward a new focus on migration and local or state structures Other essays focus on the middle decades of the nineteenth century and demonstrate that free black politics not merely the politics of slavery was a disruptive and consequential force in American political development From the perspective of the contributors to this volume formal black politics did not begin in 1865 or with agitation by abolitionists like Frederick Douglass in the 1840s but rather in the Revolutionary era s antislavery and citizenship activism As these essays show revolution emancipation and Reconstruction are not separate eras in U S history but rather linked and ongoing processes that began in the 1770s and continued through the nineteenth century Contributors Christopher James Bonner Kellie Carter Jackson Andrew Diemer Laura F Edwards Van Gosse Sarah L H Gronningsater M Scott Heerman Dale Kretz Pdraig Riley Samantha Seeley James M Shinn Jr David Waldstreicher

Y'all Have Sinned Eddie Huff, 2022-06-01 Recently Black America has been portrayed as the most maligned and persecuted people group in history and the perpetrators have been identified as Europeans and their descendants While the treatment of black people worldwide and in America by Europeans was terrible to say the least it is the lack of forgiveness for those past sins which holds the descendants of African slaves in bondage today Facing the truth about our own sins and forgiveness is the key to true freedom and prosperity for all of mankind and especially those in America black white brown and anyone else
