Berlanstein, 2009-07-01

This pathbreaking study delineates the distinctive place of actresses dancers and singers within the French erotic and political imaginations Berlanstein argues that the public image of actresses was shaped by the political climate and ruling ideology thus they were deified in one era and damned in the next **The Courtesan and the Gigolo** Aaron Freunds Schuh, 2017-01-11 The intrigue began with a triple homicide in a luxury apartment building just steps from the Champs Elyse s in March 1887 A high class prostitute and two others one of them a child had been stabbed to death the latest in a string of unsolved murders targeting women of the Parisian demimonde Newspapers eagerly reported the lurid details and when the police arrested Enrico Pranzini a charismatic and handsome Egyptian migrant the story became an international sensation As the case descended into scandal and papers fanned the flames of anti immigrant politics the investigation became thoroughly enmeshed with the crisis driven political climate of the French Third Republic and the rise of xenophobic right wing movements Aaron Freunds Schuh s account of the Pranzini Affair recreates not just the intricacies of the investigation and the raucous courtroom trial but also the jockeying for status among rival players reporters police detectives doctors and magistrates who all stood to gain professional advantage and prestige Freunds Schuh deftly weaves together the sensational details of the case with the social and political undercurrents of the time arguing that the racially charged portrayal of Pranzini reflects a mounting anxiety about the colonial Other within France s own borders Pranzini s case provides a window into a transformational decade for the history of immigration nationalism and empire in France

Planning the Greenspaces of Nineteenth-Century Paris Richard S. Hopkins, 2015-05-11 In the second half of the nineteenth century state and municipal governments oversaw the explosive growth of public parks squares and gardens throughout the city of Paris In *Planning the Greenspaces of Nineteenth Century Paris* Richard S Hopkins skillfully weaves together social and cultural history to argue that the expansion of these greenspaces served as more than simple urban embellishment Rather they provided an essential component of the Second Empire's efforts to transform and revitalize France's capital city and their development continued well into the Third Republic Hopkins brings a new dimension to the study of nineteenth century Parisian urbanism by considering the parks and squares of Paris from multiple perspectives the reformers who advocated for them the planners who constructed them the workers who maintained them and the neighborhood residents who used them As public areas over which private citizens felt a high degree of ownership these spaces offered a unique opportunity for collaboration between city officials and residents Hopkins examines the national and municipal goals for the greenspaces their intended contributions to public health and the roles of park service employees and neighborhood groups in their ongoing centrality to Parisian life Hopkins's study moves deftly from the aspirations of the political authorities to the ways in which new public spaces contributed to community building and neighborhood identity Drawing on extensive archival research he depicts a greenspace design and development process that illustrates the dynamic relationship between citizens and city

Twelve Views of Manet's Bar Bradford Collins, 2021-01-12 Bradford Collins has assembled here a collection of twelve essays that demonstrates through the interpretation of a single work of art the abundance and complexity of methodological approaches now available to art historians Focusing on Manet's *A Bar at the Folies Bergère* each contributor applies to it a different methodology ranging from the more traditional to the newer including feminism Marxism Lacanian psychoanalysis and semiotics By demonstrating the ways that individual practitioners actually apply the various methodological insights that inform their research *Twelve Views of Manet's Bar* serves as an excellent introduction to critical methodology as well as a provocative overview for those already familiar with the current discourse of art history In the process of gaining new insight into Manet's work and into the discourse of methodology one discovers that

it is not only the individual painting but art history itself that is under investigation An introduction by Richard Shiff sets the background with a brief history of Manet scholarship and suggestions as to why today s accounts have taken certain distinct directions The contributors selected to provide a broad and balanced range of methodological approaches include Carol Armstrong Albert Boime David Carrier Kermit Champa Bradford R Collins Michael Paul Driskel Jack Flam Tag Gronberg James D Herbert John House Steven Z Levine and Griselda Pollock *The Summer Capitals of Europe, 1814-1919* Marina Soroka, 2017-03-27 Cover Half Title Title Page Copyright Page Dedication Contents List of figures Acknowledgements List of abbreviations Introduction PART I Spa life 1 Shrines springs spas 2 Therapy versus pleasure 3 Spa society 4 Making money out of pleasure PART II Business of Europe 5 Royalty at spas 6 Era of congresses 7 Looking after Europe 8 Secret diplomacy 9 Puppets and puppeteers Summer of 1870 in Ems 10 Bismarck s cures 11 Rapprochements 12 The flight from spas and the end of an era 1914 1919 Conclusion Bibliography Index
