Encyclopedia of Criminological Theory Francis T. Cullen,Pamela Wilcox,2010-09-23 Consistently excellent The level and coverage of the content make this an invaluable reference for students studying criminology or taking criminal psychology modules at degree level and beyond Adam Tocock Reference Reviews In discussing a criminology topic lecturers and course textbooks often toss out names of theorists or make a sideways reference to a particular theory and move on as if assuming their student audience possesses the necessary background to appreciate and integrate the reference However university reference librarians can tell you this is often far from the case Students often approach them seeking a source to provide a quick overview of a particular theory or theorist with just the basics the who what where how and why if you will And reference librarians often find it difficult to guide these students to a quick one stop source In response SAGE Reference is publishing the two volume Encyclopedia of Criminological Theory available in both print and electronic formats This serves as a reference source for anyone interested in the roots of contemporary criminological theory Drawing together a team of international scholars it examines the global landscape of all the key theories and the theorists behind them presenting them in the context needed to understand their strengths and weaknesses In addition to interpretations of long established theories it also offers essays on cutting edge research as one might find in a handbook And like an unabridged dictionary it provides concise to the point definitions of key concepts ideas schools and figures Coverage will include contexts and concepts in criminological theory the social construction of crime policy implications of theory diversity and intercultural contexts conflict theory rational choice theories conservative criminology feminist theory **The Routledge International Handbook of Criminology and Human Rights** Leanne Weber,Elaine Fishwick,Marinella Marmo,2016-08-25 The Routledge International Handbook of Criminology and Human Rights brings together a diverse body of work from around the globe and across a wide range of criminological topics and perspectives united by its critical application of human rights law

professionals in these fields Crime, Criminality and Injustice Simon Prideaux, Mustapha Sheikh, Adam Formby, 2023-02-14 This volume contributes to the growing literature on global justice and equality seeking in its own unique way to highlight that we are on a dangerous path when we ignore the plight of those who are the weakest most oppressed and disenfranchised and that we risk even more when we are complicit in the intransigent and profound injustices they experience As Blunt 2020 powerfully argued while for those who this volume is dedicated will possibly not be its readers it is those readers in positions of power and affluence who need to be reminded and held responsible for their actions and the subsequent consequences The Routledge Companion to Criminological Theory and Concepts Avi Brisman, Eamonn Carrabine, Nigel South, 2018-07-03 A comprehensive one stop reference text The Routledge Companion to Criminological Theory and Concepts the Companion will find a place on every bookshelf whether it be that of a budding scholar or a seasoned academic Comprising over a hundred concise and authoritative essays written by leading scholars in the field this volume explains in a clear and inviting way the emergence context evolution and current status of key criminological theories and conceptual themes The Companion is divided into six historical and thematic parts each introduced by the editors and containing a selection of accessible and engaging short essays written specifically for this text Foundations of criminological thought and contemporary revitalizations The emergence and growth of American criminology From appreciation to critique Late critical criminologies and new directions Punishment and security Geographies of crime Comprehensive cross referencing between entries will provide the reader with signposts to later developments to critiques and to associated theoretical developments explored within the book and lists of further reading in every entry will encourage independent thinking and study This book is an essential reference work for criminology students at all levels and is the perfect companion for courses on criminological theory Globalisation and the Challenge to Criminology Francis Pakes, 2013-01-04 There is no doubt that globalisation has profound effects on crime justice and our feelings of security identity and belonging Many of these affect both the making of laws and the breaking of laws It has been argued however that criminology has been too provincial focusing as it often does on national laws and issues whilst others have said that globalisation is the stuff of international relations global finance and trade not of criminology This book disputes this by asserting that criminology has a firm place in this arena and globalisation offers the discipline a challenge that it should relish Some of the field's top scholars from the UK the US Canada Australia and New Zealand consider these challenges and present cutting edge analysis and debate Topics covered include transnational organised crime international policing and a range of other issues involving global harm such as genocide the workings of international financial institutions the fate of international migrants and the impact of anti immigration sentiments in Europe A particular focus is on borders and arrangements that deal with migration and populations that are excluded and adrift This book highlights criminology's analysis and engagement in new understandings of globalisation in particular its harmful and unethical manifestations and

offers a mode of scrutiny and vigilance Globalisation and the Challenge to Criminology will be of particular interest to those studying criminology criminal justice policing security and international relations as well as those who seek to understand globalisation and in particular its harmful outcomes Crimes of States and Powerful Elites Claudia Radiven, Simon

Prideaux, 2021-07-06 This book explores fourteen case studies of state crime crimes immoralities of the powerful including disasters caused by neglect pharmaceutical fraud state sponsored or instigated crime corporate crime organisational crime and state terrorism The book offers a valuable contribution to critical social science perspectives on criminality providing analysis which explores issues of accountability and social harm and linking these to wider structural contexts particularly the role of neoliberal ideologies At the same time the book will provide a critical perspective on historical case studies which continue to have legacies in the present and which help to shed light on histories of domination and inequalities and to illustrate continuities and changes in crimes of the powerful over time **Transnational Crime and Criminal Justice**
