How green is it? National and state governments create and maintain about 200 million acres of parks and forests.

Correctional facilities - prisons - house people who have been convicted of a crime.

How big? About 4 million miles of roads cross the U.S.

Safe and sound. Community police, state troopers, the National Guard, and the FBI (Federal Bureau of Investigation) work to fight crime.

Model this. The Constitution establishes how our government works. Both state constitutions and local charters arrange for polling places where people cast their vote.

911 Quick, call 9-1-1! Your community's first responders - firefighters, police, and EMTs (Emergency Medical Technicians) - are there in minutes.

Read, play, enjoy. If you like libraries, sports fields, parks, and other recreation facilities in your community, say thank you to your local government.

Emergency help. Without your local government to make the roads and to perform, you may end up with a rough ride.

Behind the wheel. Every state has a Department of Motor Vehicles. When you're old enough to get a driver's license, learn where you'll go.

Go fish! But first you'll need a state-issued fishing license. The same goes for hunting.

Race to pass. Lawyers and other professionals must pass a state licensing exam in the state where they plan to work.

Amend! Any amendment to our Constitution must be approved in at least 38 states.

Quitting isn't. A state controls all the hospitals within its borders and owns direct control over specific facilities.

Electing our President. Every state elects electors for the Electoral College. Electors cast votes for which candidate gets the majority of votes in the state.

Your teachers, your schools. Local communities hire teachers, build schools, and decide whether to send their children to school. They get taught in the state's responsibility.

Electricity, natural gas, and water are responsible for the managed and distributed. Local communities are in charge.

Pick! That's what you might say without the garbage collection provided by your community's sanitation department.

changes in their well being over time Important questions needed to be answered was it possible to trace trends in child and youth well being over several decades Could such an index provide a way of determining whether the United States was making progress in improving its children s lives The Index of Child and Youth Well Being CWI was born from these questions Viewing the CWI trends from 1975 to present there is evidence that the well being of American children lags behind other Western nations As conditions change it is clear that the index is an evolving and rich enterprise This volume attests to that evolution and what the CWI promises for understanding the progress or lack of progress in enhancing the life prospects of all American children *Children Rights and Wellbeing in India* Joseph A Gathia, Sanjay V. Gathia, 2015-01-01 India has emerged as one of the fastest growing markets in the world But what does it mean to its children Of total estimated population in 2014 as 1 236 million nearly 28 5 % are below age of 14 years Despite such a huge child population in India the issues that affect their lives and even survival tend to receive remarkably little attention This study *Children s Rights and Well being in India Law Policy and Practice Volume I II and III* is one among the few to address this theme on such a wide canvas that spans both time frame and issues There has been a growing interest over the past decade in the concept of child s rights among policy makers practioners and academics in both India and internationally But does it mean the same thing to children and families as it does to policy makers How can it be measured And if it has begun to impact on government policy has it made any difference to children s lives The three volume study *Children s Rights and Well being in India* provide an overview of key child development policies programmes laws trends and raises pertinence questions about their potential impact on children s rights The challenges of improving children s well being go beyond the provision of more effective public services important though these are The bigger questions are how can we create a society in which children are better valued and parents better supported in bringing up their children And what can be done to reduce inequalities which influence every aspect of children s well being This book makes use of a variety of sources of data including that of Govt of India the World Bank and UN agencies particularly the UNICEF and the ILO All the three volumes of *Children s Rights and Well being in India* are an essential text for all those who want to understand the crisis threatening our children s future
