Implementing and Analyzing Performance Assessments in Teacher Education Joyce E. Many, Ruchi Bhatnagar, 2017-12-01 Teacher education has long relied on locally developed assessments that lack reliability and validity Rigorous performance based assessments for preservice teachers have been advanced as one possible way to ensure that all students receive instruction from a high quality teacher Recently performance based assessments have been developed which focus on the application of knowledge of teaching and learning in a classroom setting Our book explores factors related to the implementation of teacher performance assessments in varying state and institutional contexts The contributors teacher educators from across the country focus on what was learned from inquiries conducted using diverse methodologies quantitative qualitative self studies and mixed methods Their research encompassed faculty supervisors cooperating teachers and students perceptions and concerns of teacher performance assessments case studies of curricular reform and or resistance analyses of experiences and needs as a result of the adoption of such assessments and examinations of the results of program alignment and reform The chapters showcase experiences which occurred during high stakes situations in implementation periods prior to high stakes adoption and in contexts where programs adopted performance assessments as an institutional policy rather than as a result of a state wide mandate Endorsements The chapters compiled for **Implementing and Analyzing Performance Assessments in Teacher Education** edited by Joyce E Many and Ruchi Bhatnagar present a thoughtful look at the challenges and solutions embedded in the adoption of teacher performance assessments for preservice teachers Most chapters feature edTPA the most commonly used performance assessment now mandated in numerous states and used voluntarily by other programs across the country and reveal how such assessments shine a bright light on the problems of practice in teacher preparation stressful timelines faculty silos communication with P 12 partners etc when new requirements disrupt the status quo Each chapter tells a valuable story of performance assessment implementation and approaches that offset compliance in favor of inquiry and educative experiences for candidates and programs alike

Andrea Whittaker Ph D edTPA National Director Stanford University Graduate School of Education UL SCALE Many and Bhatnagar launch the AAPE book series with a curated volume highlighting the contexts in which teacher educators implement and utilize performance assessments in educator preparation Together the chapters present research from various viewpoints from candidates faculty university supervisors and clinical partners using diverse methodologies and approaches The volume contributes significantly to the program assessment research landscape by providing examples of how performance assessments inform preparation at the intersection of praxis and research and campus and field These chapters provide a critical foundation for teacher educators

Reforming the Reform Susan L. Moffitt, Michaela Krug O'Neill, David K. Cohen, 2023-08-18 An expansive study of the problems encountered by educational leaders in pursuit of reform and how these issues cyclically translate into future topics of reform School reform is almost always born out of big dreams and well meaning desires to change the status quo But between lofty reform legislation and the students whose education is at stake there are numerous additional policies and policymakers who determine how reforms operate Even in the best cases school reform initiatives can perpetuate problems created by earlier reforms or existing injustices all while introducing new complications In *Reforming the Reform* political scientist Susan L Moffitt education policy scholar Michaela Krug O'Neill and the late policy and education scholar David K Cohen take on a wide ranging examination of the many intricacies of school reform With a particular focus on policymakers in the spaces between legislation and implementation such as the countless school superintendents and district leaders tasked with developing new policies in the unique context of their district or schools the authors identify common problems that arise when trying to operationalize ambitious reform ideas Their research draws on more than 250 interviews with administrators in Tennessee and California chosen as contrasts for their different political makeup and centralization of the education system and is presented here alongside survey data from across the United States as well as archival data to demonstrate how public schools shoulder enormous responsibilities for the American social safety net They provide a general explanation for problems facing social policy reforms in federalist systems including healthcare and offer pathways forward for education policy in particular

Direct Instruction: A practitioner's handbook Kurt Engelmann, 2024-04-05 Direct Instruction DI is a powerful instructional approach designed to ensure that students master critical skills and content required for more advanced learning Although DI has existed since the late 1960s there are many common misconceptions about the approach its potential to enhance student learning and the way its proper implementation facilitates students academic success This book provides a systematic explanation of the Direct Instruction methodology and DI program design as it outlines a roadmap for teachers and school leaders on how to implement DI successfully Divided into three main sections the first section describes DI as a coherent and complete teaching and learning system that contrasts DI with lower case di or explicit instruction which focuses on effective instructional delivery techniques The second section provides a step by step guide to implementing DI The third section is devoted to cautions about implementing DI This section reinforces the notion that the physical possession of the DI curricula does not by itself lead to student success Those who adopt DI need to ensure that it is implemented with fidelity for the benefit of their students who are reliant on them to provide them with the means to achieve their academic potential so they may lead healthy productive lives
