Checking for sense

Challenge and mastery ideas

- Ensure that children are reading each word accurately when reading aloud.
- Check that the children have understood what they read by making a statement that they can agree or disagree with, for example: *I think the boy was scared when he got in the boat.* Use this as a basis for any further teaching of misconceptions about language or for general comprehension.
- Use sentences with red herring words, such as those on page 7 of the Workbook, to check that the children are monitoring their reading and can think about what they are reading as they read.
- Write sentences and non-sentences for the children to read. Help them understand why a non-sentence (such as, *I can see wild*) does not make sense. Work together to create a sentence that makes sense.
- Children need to be reading at least 90 words per minute. Use Fluency Test 1 in the Skills Test Papers to work out children's reading speed. (See page 23 for advice about fluency.)
- Children need to monitor what they read to become fluent readers. Often, as children gain reading speed they lose accuracy. Encourage children to look ahead as they read so they can start to think about what words are coming next. Watch for children's eyes flicking ahead as they read.

Review

- Listen to the children as they read a passage with tricky language (for example an excerpt from 'Dark is fun' from *The Owl Who Was Afraid of the Dark* by Jill Tomlinson). Ensure that the children think carefully about what they're reading as they read (for example, ask: *Why does Flop fall out of the tree? What has happened to Scumbo? Why is the boy sitting by the fire? What is the not-poly pudding?*)

Watch and listen

- Listen for children who can read fluently and accurately.
- Listen for children who can accurately discuss the content of what they have read, picking up on easily missed details.
- Watch for children who can concentrate on what they are reading and can become absorbed in the text.
- Watch for children who can accurately spot errors in their own and classmates' writing, correcting any errors they find.

The Official SAT Teacher's Guide ,2006 **Teacher's guide** ,2005 *Errors and Misconceptions in Maths at Key Stage*
2 Mike Spooner,2012-07-26 The activities in this book are designed both to help children to learn and to understand math concepts and also to prepare them for taking SATS papers at KS2 There is plenty of research evidence to suggest that children are helped in their understanding of math problems if teachers focus on common misconceptions and if children are given opportunities for discussion and explanation of their own understanding Children can also feel stigmatized by being made to focus on their own errors Mike Spooner has developed activities that present already completed work which children then assess correct and discuss in this way they can analyze mistakes without damage to their own self esteem The activities are presented in the same format as the SATS papers to give children practice in coping with that format The book also contains writing frames that children can use to structure their discussions of math problems **SAT Victory**
